WOMAN KILLED WHEN CAR RUNS INTO TRAIN

Coupe Driven by Local Woman Completely Demolished.

BRAKES FAIL TO HOLD

Mrs. Charles Price, of Bitumen, is dead, and another, Mrs. Edith Knoff, of Bellefonte, is seriously injured, as a result of the latter driving her Chevrolet coupe into the side of the locomotive of the 9:15 local at the brick yard crossing, just as it was pulling into Milesburg, last Friday morning.

Mrs. Price had arrived from Bitumen, the day before to spend Decoration Day with her friend, Mrs. Knoff, and the two were on their way to the Advent cemetery with a load of flowers to decorate the graves of relatives and friends, when the fatal accident occurred.

The coupe was the most completely wrecked car the writer has ever seen, bits of the wreckage being strewn along the track for a distance of 300 feet, and not one single unit of it being intact. Even the motor was torn apart, and the transmission and rear axle, minus the wheels, lay about 50 feet from the scene of the smash-up.

Mrs. Price's skull was badly crushed, but she lingered until Sunday morning, when death occurred about 9 o'clock at the local hospital. Mrs. Knoff sustained burns on the face and chest, and had three fractured ribs, besides being severely cut and bruised on other portions of her body. Her explanation of the disaster is that, although she saw the train just before she ran into it, the brakes on her car failed to hold. The train was stopped and both women were brought to Bellefonte in the baggage car, where they were met by the ambulance and rushed to the hospital.

Mrs. Eva Price was a daughter of Mr. and Mrs. Levi Grubb, of Milesburg, and for a number of years resided at Sunnyside, just west of town, moving to Bitumen about two years ago. She was 53 years of age, and is survived by her husband and the following children: Mrs. Mildred Rine, of Bitumen; Mrs. Samuel Hess, of Flemington; Carson, John and Helen, at home. Her mother, and the following brothrs and sisters survive: Mrs. Hardy, and James Grubb, Flemington; Mrs. Tressler, Lock Haven; Mrs. Kline, Runville; Harry, Roopsburg; Nelson, Coleville; Lew, and Mrs. Grace Reger, Buffalo Run valley. The funeral wss held Wednesday afternoon at 2 o'clock, intermen' being made at Flemington.

Loses Self in Mountain.

A lot of excitement was created in Boalsburg and vicinity last week by the disappearance of William Mulbarger, from Thursday until Sunday evening. Apparently suffering from temporary insanity, Mulbarger wandered off from the George Fortney farm, where he is employed, and upon his failure to return, investigations revealed the fact that he had been seen wandering toward the mountains. Hundreds of searchers, including many college students, scoured the country in and about Bear Meadows without finding any trace of the unfortunate man. Sunday evening, however, he wandered down from the mountain, having been lost for three days and nights, without a scrap of food Naturally he is at present in a greatly weakened condition, from the exposure and privation, but aside from that, no ill effects were noticeable.

Grove Family Reunion.

The sixteenth annual reunion of the Grove family will be held at Grange park, Centre Hall, Thursday June 19th. Each year this reunion is becoming more popular with the Grove family and their friends who come from nearby counties for the occasion. The president of the reunion association for this year is William E. Grove of Lemont who is a decendant of one of the earliest Grove settlers in this county who came here from Lancaster county more than 100 years ago. One of the features of this reunion is the wonderful dinner and everybody is invited to come and bring their baskets.

Bellefonte Man Seriously Hurt.

Samuel Solt, formerly of Bellefonte, is in a critical condition in the Shamokin hospital, following the collision of his Ford and another car on Friday morning. Both cars was badly wrecked, Mr. Solt, being thrown clear out of the car and alighting on his head in the roadway, some distance from his car. He is a son of Mrs. Dennis Mongan, of Bellefonte, and is well known here.

MEDAL FOR BRAVERY

John W. Saxton, of Unionville, Honored by Penna. Railroad.

John W. Sexton, the well-known young Tyrone Division operator at Unionville, who so signally distinguished himself a hero at his tower on the 8th of last June, when he snatched a 2 year-old child from death in the face of the fast approaching Lehigh Express at the risk of his own life and limb, was one of the 27 Pennsylvania Railroad System employes to be presented with the company's bronze medal for the performance of extraordinary acts of valor, by President Samuel Rea, at Broad Street Station last week.

The medal, which is of bronze, is 2¾ inches in diameter. On the face of it there is a reproduction of the largest type passenger engine now in service. Under this are the words, "All honor attend you in your valor!" On the reverse side there is a large keystone encircled by a laurel wreath. The keystone contains a facsimile of the official seal of the Pennsylvania Railroad Co., above which has been inserted the name of the employe to whom the medal is awarded, as well as the date on which the heroic service was performed.

The facts of Saxton's heroic act bear repetition at this time. He heard Le high whistle for the crossing at Unionville station, and at the same time saw little Andrew Jackson Robison, son of John Robison, trick foreman at Unionville, waddle up on the track and stop. He realized that it was too late to pull the board on the engineer, so he rushed from the tower and snatched little John off the track just a fraction of a second before the heavy express thundered by. It was a deed of pure, unadulterated heroism, and Saxton richly deserves the great honor that has been bestowed upon him.

P. O. S. OF A. MEMORIAL DAY

Bellefonte Camp to Attend Church and Decorate Graves.

Sunday, June 8th, has been designated as Memorial day by the national executive board of the P. O. S. of A., and Bellefonte Camp, No. 887, has arranged an elaborate program for the occasion. At 10.30 o'clock in the morning members will assemble at their hall in the Potter-Hoy building and march in a body to St. John's Reformed church where Rev. Dr. A. M. Schmidt will deliver the memorial address at 10 45.

At 1.30 the membere will march from their hall to the Union cemetery where appropriate services will be held and graves of deceased brothers will be decorated, From the Union cemetery members will go to Shiloh, where services will be held at 2.30, and from that point to Boalsburg for services at 4:30 o'clock. They will then proceed to Centre Hall where services are scheduled for 6 o'clock, after which the return trip will be made. At all points visited, local camps are invited to participate in the services. Col. H. S. Taylor and O. P. Waters, state organizer, will deliver addresses at the several cemeteries.

The Emerick bus line will provide transportation for all members of P. O. S. of A. who desire to make the trip. The charge will be $1 for the entire trip. The committee in charge of the program is composed of John M. Fisher, Elmer S. Williams and Register Harry A. Rossman. They are putting forth special efforts to make the occasion one that will reflect the greatest credit possible upon the Bellefonte camp.

BACCALAUREATE SERMON

Rev. Maynard Delivers Beautiful Address to High School Class.

On Sunday night the graduating class of the Bellefonte High School, accompanied by the members of the School Board and Faculty, marched in a body to the Presbyterian Church and heard their Baccalaureate sermon preached by the Rev. M. DeP. Maynard of St. John's Episcopal Church.

He chose as his text 1st Corinthians, IX-24, "Know ye not that they which run in a race run all, but one receiveth the prize? So run that ye may obtain." With that as a setting, there was offered to his listeners a talk so straightforward and convincing in its appeal, that not only were the members of the class of 1924 given a goal toward which they might strive, but also the older members in the audience were caused to review their own lives and the value they have been to themselves and others.

During the service a combination choir under the direction of Mrs. Krader rendered Mozart's "Twelfth Mass" and "The Heavens Are Telling" from "Creation" by Hadyn.

Mr. Maynard was assisted by the pastors of other Bellefonte congregations.

5 MILLS TAX INCREASE IS ORDERED BY COUNCIL

Borough Rate Doubled; Street and Interest Unchanged.

HITS RACING TO FIRES

At the regular meeting of Council on Monday evening the borough tax was raised from 5 to 10 mills. The street tax, which has always been 10 mills, remains the same, as does the interest tax of 5 mills.

A resolution of respect was adopted in the minutes in memory of Councilman John Dunlap, deceased.

Geo. Hazel was present as a member of the Kiwanis and requested Council's permission for the Kiwanis to place flower boxes around the iron lamp posts on Allegheny St. from Bishop to Howard Sts., and on High St., from the diamond to the P. R. R. passenger station, these boxes to be looked after by the Boy Scouts or some similar organization. The matter was referred to the Street committee.

The Street committee stated that the crossings, parking spaces, safety zones, etc., will be marked as soon as the weather permits. Parking spaces for the doctors' cars, whose offices are located along the main streets, are to be marked off and reserved for their use only.

A permit was asked by W. B. Port to put a 500 gallon tank for gasoline, under the street in front of his home on Howard St. Referred to the Street committee.

Burgess Walker turned over the sum of $103.50, collected in fines and licenses.

Councilmen William Brouse and Thomas Hazel were named as delegates to accompany Solicitor Spangler and Burgess Walker to the annual convention of the Association of Boroughs, which will take place at New Kensington June 9—11.

A Borough ordinance defining disorderly conduct and providing penalties for the violation thereof, was sponsored by Burgess Walker and finally passed by Council, after a rather heated discussion. The ordinance is as follows:

SECTION I:—Be it enacted and ordained by the Council of the Borough of Bellefonte, and it is hereby enacted and ordained by the authority of the same:

That disorderly conduct within the limits of the Borough of Bellefonte, shall be and is hereby defined as any act, word or conduct causing or tending to cause any danger, discomfort or annoyance to the inhabitants of the borough or user of the Borough thoroughfares, and shall include loafing, fighting, drunkenness, vagrancy, begging, the making of unnecessary noises, using profane or indecent languages; the use or operation of automobiles, trucks or other vehicles by owners, drivers or occupants thereof as shall or may endanger the safety of the public; the interference with or destruction of traffic signs or signals, disregards for traffic regulations, the parking of automobiles, trucks or other vehicles within a distance of fifteen (15) feet on either side of any public or private fire hydrant, or the parking within a distance of fifty (50) feet from the center of the Logan and Undine Hose company building on both sides of the street where the said fire buildings are located; racing to fires driving over fire hose, or any unauthorized interference with the free and uninterrupted use of all fire apparatus and equipment by the fire department of the Borough, either going to, at, or returning from a fire. All the foregoing offenses as coming within the definition of said disorderly conduct are hereby declared to be lawful.

SECTION II. Any person or persons violating the provisions of this Ordinance shall be liable for every such offense upon summary conviction before any Burgess or Justice of the Peace, to a fine of not less than $2.00 nor more than $25.00 and costs, at the discretion of such officer before whom conviction is had, and in default of the payment of said fine and costs thus imposed shall be committed by the said Burgess or Justice of the Peace, to the Borough lockup or to the county jail for a period not to exceed one day for each dollar of fine and costs so imposed.

Wants Bank Reorganized.

A. W. Reese, of Port Matilda, in a letter distributed among local newspapers, suggests that the defunct Centre County Bank be reorganized by stockholders, by using such surplus as will be on hand after paying off the shortage, and providing whatever additional capital may be required.

GRADUATION EXERCISES AT LOCAL HIGH SCHOOL

Sixty Seniors Awarded Diplomas on Wednesday Evening.

PRIZE WINNERS NAMED

The commencement program of the High school was brought to a close last night when sixty graduates received their sheep-skins. Sunday evening the Baccalaureate sermon, a more complete account of which is given elsewhere in this paper, was delivered to a large audience. Monday evening, the Junior Declamatory contest was held, the prizes going to John Emil, and Mary Shoemaker. Tuesday morning the Bishop street school gave their closing exercises, and on Wednesdey the Allegheny street school presented their plays. A whimsical farce comedy was presented by the pick of the dramatic and glee clubs on Tuesday evening at the Moose theatre. Only one more function remains of the High School life of the sixty graduates. That is the annual Alumni dance given in their honor by the "Old Grads" at the Armory, this (Thursday) evening.

Prizes awarded high school students and announced at the Commencement exercises on Wednesday, are as follows:

GENERAL EXCELLENCE PRIZE.

A prize of $10 given by Col. W. Fred Reynolds to the pupil in the graduating class of the general course judged by the Faculty as ranking best for general excellence in the whole course of study in the High School, considering conduct as well as progress in studies, awarded to Elizabeth Hunter; second honors, Martha Geiss and Mary Katz.

GENERAL EXCELLENCE PRIZE.
(Commercial Course.)

A prize of $10 given by Miss Myra Humes continuing the prize of William P. Humes to the pupil graduating in the Commercial Course who has shown the greatest efficiency in commercial subjects including neatness and accuracy in their work, awarded to Margery Way.

BIOGRAPHICAL ESSAY PRIZE.

A prize of $10 given by Mrs. M. E. Brouse to the pupil who writes the best biographical essay during the senior year, awarded to Elizabeth Hazel; honorable mention, Martha Geiss.

MATHEMATICS PRIZE.

A prize of $10 the gift of Mr. Harry Keller to the student graduating with the highest attainment in mathematics, awarded to Dorothy Knisely; honorable mention, Ralph Poorman.

MUSIC PRIZE.

A prize of $10 the gift of Mr. Walter Cohen to the pupil in the High School who has shown the greatest interest and highest attainment in the musical work of the school, divided between Jack Yeager and Pearl Garbrick; honorable mention, Marian Kane, Merril Waite.

DRAMATIC PRIZE.

A prize of $10, the gift of the dramatic club of the High School to that one of its members who by faithfulness, ability, and hard work has done most toward promoting the success of the productions of the club, divided beween Helen Brown and Philip Ray; honorable mention, Basil Martin and Mary Parrish.

SENIOR MANUAL TRAINING PRIZE.

A prize of $10, the gift of Mr. Walter Cohen to the senior in manual training who produces the finest piece of woodwork, awarded to Kelsey Harvey; honorable mention, Edward Meyers.

JUNIOR MANUAL TRAINING PRIZE.

A prize of $10, the gift of Mr. H. S. Moore to the junior in manual training who produces the finest piece of woodwork, awarded to James Shope; honorable mention, William Hall.

JUNIOR DECLAMATORY PRIZE.

Two prizes of $7.50 each, given by Col. W. Fred Reynolds to the boy and girl in the junior class who delivered the best declamation or recitation, awarded to John Emel and Mary Shoemaker; honorable mention, Clyde V. Smith and Betty Zerby.

GENERAL COURTESY PRIZE.

A prize of $5 given by Mr. George Meek to the pupil in the High School judged by the faculty to show under all conditions the highest standard in courtesy, awarded to Kathryn Johnston; honorable mention, Margery Way.

BOOK-KEEPING PRIZE.

A prize of $5 given by Mr. George Meek to the pupil in the course in bookkeeping who keeps the neatest and best set of books, awarded to Margaret Eisenhauer; honorable mention, Louise Knisely.

HYGIENE PRIZE.

A prize of $5 given by Dr. John M. Keichline to the pupil in the class in personal hygiene in the Household Arts Department of the High School, who not only stands high in the subject but shows in various ways the greatest interest in a subject of this type, awarded to Minerva Gray.

PHYSICS AND CHEMISTRY.

A prize of $10 given by O. B. Malin to the member of the senior class for the highest rank in Physics and Chemistry, awarded to Ralph Poorman; honorable mention, Ray Ishler.

HOUSEHOLD ARTS PRIZE.

Two prizes of $5 and $2.50 respectively given by Mrs. John S. Walker to those pupils in the Household Arts Department of the High School, who in connection with maintaining a satisfactory standard of scholarship, reveals the greatest interest of our school in the various subjects of homemaking that are taught within; first prize awarded to Rachel McKelvey, second prize awarded to Eleanor Barnhart.

MECHANICAL DRAWING PRIZE.

A prize of $5 given by Mr. Charles F. Cook to the boy in the Sophomore class who exhibits the best all around training in Mechanical Drawing, awarded to Donald Best; honorable mention, Donald Mallory.

HISTORY PRIZE.

A prize of $5, the gift of the Daughters of the American Revolution for excellence in class work and examination in American History, awarded to Ralph Alexander.

A prize of $5, the gift of Mr. A. C. Mingle for excellence in clean work during the year in Modern History, awarded to Mollie Shugert; honorable mention, Margaret Eisenhauer.

A prize of $5, the gift of Mr. A. C. Mingle, for excellence in class work during the year in Ancient History, awarded to Pearl Shope; honorable mention, Rachel McKelvey.

GENERAL SCIENCE PRIZE.

A prize of $5 given by Mrs. M. E. Brouse to the girl in the Home Economics Department who attains the highest rank in General Science; awarded to Betty Musser.

LATIN PRIZE.

A prize of $5, the gift of Miss Myra Humes to the pupil who attains the highest excellence in Caesar, awarded to Josephine Rearick.

TEMPERANCE ESSAY PRIZE.

A prize of $5 given by the W. C. T. U. for the best essay on a temperance subject written by a freshman during the year, awarded to Catherine Farley; honorable mention, Mary Shutt.

The pupils of both grade schools who took honors in various ways are as follows:

BISHOP STREET SCHOOL.

Grade I—General excellence, Margaret Beaver; honorable mention, Pauline Kalin; neither absent nor tardy, Franklin Pennington.

Grade II—General excellence Eleanor Cowher, Bernice Murray, Lydia Hepburn, Mary McCulley; excellent in arithmetic, Bernice Murray; honorable mention, Francis Eisenhauer, Reynolds VanBuskirk, William Keith Marks, William Brouse, James Hartman, Dorothy Sager, Lucile Ulrich, Frances Love, Louis Kerstetter; neither absent nor tardy, Winifred Coder, Dorothy Sager, Mary McCulley, Helen Peters.

Grade III—General excellence, Elizazeth Tinsley, Norman Kirk; excellence in arithmetic, Elizabeth Tinsley; neither absent nor tardy, Elizabeth Tinsley, Helen Spicer, Earl Glunt, Jack Shope, John Whippo, Philip Mabus.

Grade IV—General excellence, Harold Rossman, Christine Gunsallus; honorable mention, Herman McClure, Aline Fisher; excellence in arithmetic, Herman McClure, Robert Thal; honorable mention, Carolyn Brouse, Harold Rossman; neither absent nor tardy, Herman McClure.

Grade V—General excellence, Sue Armstrong; honorable mention, Ralph Hoag, Henry Rhoades; excellence in arithmetic, Carl Fisher; neither absent nor tardy, Sue Armstrong, Murial Baney, Dorothy Witmer, Ralph Hoover, Edmond McCafferty.

Grade VI—General excellence, Leila Jodon; honorable mention, David Fortney, Rebecca Bowersox; excellence in arithmetic, Leila Jodon; neither absent nor tardy, Helen Confer, Frances Hazel, Eleanor Hill, Sara Symmonds, Wilbur Badger, Orvis Baney, Harry Beck, Jack Fisher, Reynolds Shope, James Williams.

Grade VII—General excellence, Gladys Daugherty; excellence in arithmetic, Caroline Kalin; neither absent nor tardy, Samuel Confer, Sheldon Evey, Russell Hartman, Robert Heverly, Harry Symmonds, Frederick Whippo, Leonare Witmer, Sarah Carson, Anna Eckel, Helen Glenn, Mary Pennington.

Grade VIII—General excellence, Donald R. Conrad; honorable mention, Richard Bleeker; excellence in arithmetic, Ethel Hoover; neither absent nor tardy, Floyd Ammerman, Donald Conrad, Frederic Shope, Malcolm Stickler, Eleanor Billet, Emily Eckel, Blanche

(continued on page 8)

BELLEFONTE HIGH WON INTER-SCHOLASTIC MEET

Victors in Numerous Events at Clearfield on Saturday.

SOME RECORDS BROKEN

The Bellefonte High School track team covered itself with glory last Friday at the 4th annual inter-scholastic track meet, at Clearfield, by winning the meet and coming home with a whole carload of cups, medals, ribbons and watches. The three high scoring schools were, Bellefonte, 33½, Clearfield, 29, and Philipsburg nosed Juniata out of third place by half a point, with 19½. Other schools taking part in the meet were: Brockwayville, Punxsutawney, State College, DuBois, Brookville and Houtzdale.

The first event was the 2 mile marathon, won by Magargel, of Bellefonte, who broke the record by covering the course in 10 minutes, 12 seconds, against a previous record of 10-50 2-5. James Shope, of Bellefonte, won the 100 and 220-yard dashes, McCullough, also of Bellefonte, taking second place in the latter event. First place in two other events was taken by the victorious locals, "Jim" Bower winning the high jump with a leap of 5 ft. 4 in., and coming within a half inch of the inter scholastic record of 5-4½. The relay team, consisting of Waite, Magargel, Shope and McCullough, easily won their event, being within 4-5 of a second of the record. In the ¼ mile, Waite tied with Davis, of Philipsburg, for third place. Gordon took 4th in the ½ mile, and Poorman 2nd in the mile.

Altogether there were no less than 4 records broken at the meet. In addition to the 2 mile run broken by Bellefonte, Brockwayville broke the record for the shot put and the pole vault and Juniata that for the ½ mile.

A large and enthusiastic crowd cheered every event. Members of the Bellefonte team were enthusiastic over the treatment they received, and over the efficient and orderly manner in which the meet was conducted. It is thought that had the track been less muddy, more records would have been shattered in the running events.

SPECIAL COURT

Two Recaptured Prisoners Sentenced for Escaping Rockview.

At a special session of court last Saturday morning two prisoners, James Smith and Edward Brophy, both of Newcastle, the story of whose escape from Rockview was printed in last week's paper, were given the usual doubling of their sentence. The escape was consummated by cutting the stockade behind the paint shop on Wednesday evening between 6 and 8 o'clock, the capture being made on Thursday at 2:30 A. M., near Snow Shoe Intersection, by Guards Davis and Rhoads.

In view of the fact that Smith was only 18 years old, Judge Quigley stated that he would take the matter of his transfer to Huntingdon up with the Lawrence County judge. Both were originally committed for the crime of larceny, this being Smith's first offense, and Brophy's second, the latter having served a term in the Allegheny County workhouse.

HOSPITAL MEETING

Contributors to Fund Asked to Meet at Court House June 9.

A special corporate meeting of members of the Bellefonte Hospital will be held in the Court House at Bellefonte on Monday evening, June 9, at 7:30 o'clock. Every person who has contributed to the recent hospital campaign fund, and every person who has otherwise contributed to the Bellefonte Hospital during the last year, irrespective of his or her residence, is a member of the corporation entitled to vote at this meeting, at which time a new board of trustees to succeed the present trustees, will be elected.

Action will also be taken upon a proposed petition to the Court of Common Pleas for the change of its charter and to pass upon such by-laws of the Centre County Hospital as may be proposed at this meeting. Every good citizen and friend of the hospital should attend.

Kiwanis News.

Bellefonte Kiwanis held its weekly meeting at the Brockerhoff House on Tuesday evening. The address was made by John R. Pierson, of the Williamsport Sun, who spoke on Kiwanis. Charles Bark, district trustee of Kiwanis, also of Williamsport, spoke briefly. Minstrels in the person of Kiwanians Payne, Tinsley, Bingaman and Toner were a feature of the evening.

Variety in Tailored Suits; Coat and Frock for Little Girl

THE regulation tailored suit led the procession when new styles for spring and summer made their entry, and it found a world of women waiting to applaud its coming. All the tailored modes received a royal welcome, for American women are convinced that there is nothing more becoming to them, and they are right. "Give them what they want" is a profitable slogan for stylists, and straightway they began giving us variations of the tailored suit, and now we have street suits, sports suits, semi-sports suits, formal suits and suits that can be managed—by means of accessories—to be more or less formal. Many variations are

Two Charming Tailored Suits

approved in tailored modes, and they range all the way from the simplest and most unpretentious styles to richly elaborated affairs.

As an example of simple and casual style in a two-piece suit, the model at the right of the two pictured challenges comparison. The designer has taken a barred flannel and made it into a straight up-and-down skirt, and a coat (or what passes for a coat) that is equally uncompromising as to line. The opening at the front leaves us in doubt as to whether he had in mind a blouse or not. This overgarment does the work of both blouse and coat. The plain collar and cuffs, of crepe de chine, and the walking stick bespeak a boyish style which is an approved phase of the tailored mode.

sidered in the dressier suits and considerable attention is given to Lanvin green. Soutache braid to match is often used in bandings on coats and as a decoration for collars and cuffs. Borders of cartridge plaits, fastened down with heavy embroidery silk, is a novel adornment. Just as beautiful as any in colors are the two-piece suits of black satin that are so sure of a welcome.

In the matter of children's clothes those who undertake to make them at home are wise when they choose to be copyists. So far as designing them goes it is best to leave it to professionals whose talent has made it worth their while to give all their time to this work—for there is nothing they have overlooked in the direction of beauty, or convenience, or durability. Their ranks are filled by people who have developed a genius for expressing childhood through the medium of clothes.

There is considerable economy in making light summer coats and nearly all frocks that involve handwork at home. Heavier coats, like that shown in the picture, require more expert work than that of the average needlewoman. But summer coats of camels' hair, flannel, crepe and other materials are cut on simpler lines and are not difficult to make.

For little girls of three years and upward coats with shoulder yokes are

For Little Miss Four-and-Up

A modest example of the mode in formal suits appears at the left of the picture. Fashion inclines to the heavier silk crepe weaves for suits of this kind and finds the Chinese coat adapted to embroideries, which are usually done in self-color. But satin in two-piece suits with straight box coats and plain skirts is a new arrival that has met with nothing that outclasses it. In the light brown shades it is superb. Narrow silk braid is used for adornment and scarfs to match add to the fascinations of the satin suit.

No conscientious reporter of tailored styles can fail to mention the beautifully finished twill suits in beige and tan, made with long coats, that so many women have selected. They belong in the semi-formal squad and are very adaptable. Hats and other accessories easily place them in the formal coterie.

Color is a vital factor to be considered in the development of the mode, and it is perhaps the most important factor in the success of the costume. Navy blue is popular. In colors beige, tan, brown, green, blue and some red shades are liked, and tucks or a little stitching contribute to their adornment.

There is an amazing number of ways in which simple dresses are varied by little differences in cutting and in decorating them. Simplicity is the keynote of all good styles for children and the simplest decorative needlework remains unrivaled as a finish for tiny girls' dresses. Cross-stitch embroidery heads the list of approved decorations, followed by other simple patterns on the dressier frocks. One of these, made of white voile, is shown in the picture with needlework adornment in colors. Voiles in white and in lively colors as yellow, rose, green and blue are prettily finished with cross-stitch in darker tones of the same colors.

Fused Quartz As Aid to Health

Makes Healing Ultra-Violet Rays Independent of Sun.

New York.—The perfected method of making fused quartz in quantities, as announced recently by the General Electric company, is expected to make man independent of the sun's rays so far as his ability to obtain ultra-violet rays are concerned, according to the opinion of scientists now engaged in experimenting with the newly developed material.

E. R. Berry, assistant director of the Thomson research laboratory of the General Electric company, announced that he had enlisted the services of Dr. W. T. Bovie, professor of bio-physics at Harvard medical school, and Dr. Clarence C. Little of the University of Maine and their institutions to further important experiments in the use of fused quartz.

The property which makes fused quartz stand out above all others is its ability to transmit ultra-violet rays, the healing chemical rays which, emitted by the sun, cause sunburn. These rays are excluded by ordinary window glass.

Now that Mr. Berry has made it possible to produce fused quartz in quantities, efforts are being made to learn whether it will be practicable to use the material in the extensive manufacture of electric bulbs.

Independent of the Sun.

"If we can provide artificial illuminants that will emit ultra-violet rays we won't have to depend on the sun, which is so uncertain in winter," said Doctor Bovie. "We can get the sun's effects on cloudy days by using quartz bulbs or tubes with incandescent light."

Doctor Bovie is planning to erect on the grounds of Harvard university a greenhouse glassed with quartz in which will be determined certain effects of the rays upon growing plants with a view to applying any knowledge thus gained to improving human health or preventing human diseases. Experiments with a similar object are to be made in the University of Maine laboratories, where conditions are considered especially favorable.

While those who have undertaken the experiments with quartz desire to refrain from raising false hopes as to the possibility of curing or preventing certain stubborn diseases, they feel encouraged that infant mortality from rickets, particularly in crowded cities, may be further reduced as a result of the work.

"We all know that exclusion of light results in the blanching of plants," said Doctor Bovie. "They may become more succulent for table purposes, but their tissues are not stout and well developed. This is because calcium and phosphorus salts are not deposited in the absence of the ultra-violet rays in sunlight.

"Similarly, if babies are submitted to the same absence of sunlight, or of ultra-violet rays, their bones do not grow, and hence rickets set in. This is a common disease, how common is not generally realized. It is perhaps little realized, either, that it is prevalent among the babies of the well-to-do who are not allowed to play in the streets.

"Remember that playing in the sun, behind window glass, does not expose the children to these beneficial rays. However, quartz windows which do admit these rays are now entirely within the bounds of possibility as a result of Mr. Berry's work.

The Havoc of Rickets.

"But to get back to rickets. Autopsies on babies in Dresden showed that of those who were born in the fall and died in the spring, 96 per cent had rickets. Of those who were born in the spring and died in the fall only a very small percentage had rickets. The babies born in the spring were outdoors in the sunlight during the summer."

After remarking that the sun's effects could be obtained on cloudy days by the use of quartz bulbs, Doctor Boyle added: "Certain foods act sympathetically to sunlight. It is not inconceivable that we could light our restaurants with sources of ultra-violet light so that while partaking of foods rich in phosphorus and calcium we could partake of light energy that would enable us to utilize these salts in normal manner.

"There are diseases other than rickets which are due to faulty metabolism, the 'machine gun sneeze' is one. Such diseases might be alleviated by feeding calcium lactate and using ultra-violet light in connection with it.

"Altogether, the availability of quartz suggests very interesting possibilities. With Doctor Little we are undertaking the investigation of the effects of the ultra-violet rays on the calcium metabolism of milch cows. The object, of course, is to see if the rays can have any effect on the milk we feed our babies. It is not improbable. Other animals feel the effect of the lack of these rays. Deep-sea fish do not produce bones, though living in water prodigally saturated with calcium salts. Fish of the same species living in the upper water, where the sun rays strike through, have bones in profusion.

Ultra-Violet Rays for Poultry.

"Likewise poultrymen in the North are unable to grow chickens for early market satisfactorily. In the darkness of long winters the chickens suffer from 'weak legs.' This is nothing but rickets and ultra-violet rays cure them. Hughes of the Kansas experiment station exposed hens to ultra-violet rays ten minutes a day and doubled their egg production. Further, the weight of the individual egg was increased 20 per cent.

"I am personally convinced that pine trees in our forests, deprived of light, suffer from rickets just as humans do. We shall hang ultra-violet quartz lights about the woods in the course of our experiments and see what the result is."

Doctor Bovie pointed out that the employment of ultra-violet rays is not new, that they were used by Egyptians, Romans and Greeks, but that their chemical nature was not known. Their identification and control are of recent accomplishment. Among others, Finsen in Copenhagen succeeded in curing a skin form of tuberculosis and in showing the beneficial effects in the treatment of smallpox.

"In America, however, progress has been retarded and some such event as the production of this quartz has been needed to redirect attention to the subject," said Dr. Bovie. "American doctors did not understand the scientific side of ultra-violet therapy. Its use developed into a bad form of quackery. Apparatus called ultra-violet lamps which did not emit any of the rays Finsen relied upon were used. The result has been that many reputable physicians of America have refused to have anything to do with it."

Essence of Sunlight the Year Round.

Those conducting experiments with fused quartz point out that if the new quartz merely makes it possible eventually for the average home to have the essence of sunlight, artificial or natural, the year round, in bad weather and good, its meaning in health to countless thousands who, "grown under glass" have been deprived of the beneficial qualities of sunlight, heat excepted, is likely to prove measureless. It is believed that the action of the ultra-violet ray is sufficiently well known to make this possibility a prediction and that indoor living, or residence in regions overcast for long periods, need not be so hazardous in the future. If the views of some scientists are to be accepted, Mr. Berry will be regarded as the man who made "perpetual sunshine" possible.

"There are now opened possibilities of studying the effect of ultra-violet rays on the fundamental instinct of migration and hibernation and upon the inherited characters of animals and plants," according to President Little. "It will be possible also to compare the effect of ultra-violet and X-rays on identical material.

"Also, the fact that strains of mice at the university's laboratory have long been used for research with cancer lays open a field of prospective value in the relation between ultra-violet rays and biology and medicine."

Funeral Is Conducted by the Klan

Owen Poorbaugh of Johnstown, Pa., a member of the Ku Klux Klan, died in the county jail at Ebensburg, and was buried by the Klan. The funeral procession is shown passing through the streets of Johnstown.

PLAYGROUND SITES ARE OFFERED TO FIFTY CITIES

Harmon Foundation of New York Will Donate Fund for Each Up to $2,000.

New York.—Growing towns, small cities and suburban centers will be given an opportunity to obtain playgrounds free of cost through proposal of the Harmon Foundation of New York to give playgrounds this year to 50 communities of this kind in the United States.

Although the time for filing applications will expire July 1, and a large number of applications have been received from communities throughout the country, Indiana towns have failed to take advantage of the offer, according to officers of the foundation.

Under the terms of the offer, towns, small cities and suburban sections of larger cities with 3,000 or more residents and which show a growth of at least 30 per cent since 1900, are eligible in the final consideration for selection of the 50 sites for playgrounds. Applications will be investigated and the 50 playgrounds given to the same number of applying communities which are found to need them most.

Other conditions are a $2,000 maximum for each playground site, but this amount may be added to by the community if it is desired to purchase a better site than that obtainable for that amount: $1,000 is the maximum price to be paid per acre; an appraisal of the actual value of the land by two disinterested citizens who know land values in the community must accompany each application; assurance that an option on the land proposed for purchase can be obtained for a sufficient period to consummate negotiations must accompany each application; title of property must be examined and legal opinion provided; all applications must be made in writing on regular blanks provided by the division of playgrounds, Harmon foundation, 140 Nassau street, New York, and all playgrounds obtained through the foundation must be known permanently as Harmon field, and all applications must be indorsed by the mayor or president of the board of education.

The Harmon foundation was organized last year through the desires of William E. Harmon, head of a real estate company of New York, to provide proper places of play for children because he had lacked these advantages when a child. A number of playgrounds have already been given to small growing towns.

Trees Six Cougars

Montesano, Wash.—For the pelt of a cougar recently killed by himself, Jack Eckstrand of Aberdeen has received from Auditor W. D. Campbell a bounty of $20. Eckstrand killed the cougar near the headwaters of the Satsop river. He told Mr. Campbell that at the time his dogs had treed six of the animals, but owing to the lateness of the hour the others got away in the growing darkness.

LONDON'S WOMAN BOBBY

Commandant Mary S. Allen, head of the Women's Auxiliary Police of London, who arrived in New York to study our women police, juvenile courts and other American institutions.

"Wonder Child" Puzzle to Russian Physicians

Moscow.—Soviet Russia has produced a "wonder child," a boy four years and ten months old, named Victor, son of a Vladivostok physician, who already wears a full beard of whiskers and is able to throw a full-grown man in a wrestling match. The learned professor, Leontief, and his colleague, Doctor Bosik, who examined Victor, speak about hypertrophical development, the thyroid, pancreatic and other glands and a "mysterious malady" from which the child is suffering. But Victor continues to grow despite them and their treatment. The precocious infant, who walks stiffly and stumblingly, plays like a child and has a child's mentality, yet he can choke his small playmates black faced. He puzzles professors as the great country where he was born puzzles Western theorists.

KILLS PESKY BED BUGS P. D. Q.

Just think, a 35c box of P. D. Q. (Pesky Devils Quietus) makes a quart, enough to kill a million Bed Bugs, Roaches, Fleas or Cooties, and stops future generations by killing their eggs, and does not injure the clothing. Liquid fire to the Bed Bugs is what P. D. Q. is like; Bed Bugs stand as good a chance as a snowball in a justly famed heat resort. Patent spout free in every package of P. D. Q., to enable you to kill them and their nest eggs in the cracks.

Look for the devil's head on every box. Special Hospital size, $2.50, makes five gallons; contains three spouts. Either size at your druggist, or sent prepaid on receipt of price by Owl Chemical Works, Terre Haute, Ind.

A Similarity

"Well, sir, I was reading last night about a feller, over there in Europe, som'rs, that held his hand in the flame of a lamp until it was burnt off," related Tobe Sagg of Sandy Mush. "He didn't flinch nor change expression while it was burning, neither."

"H'm!" returned the acquaintance addressed. "That's just the way I do when my wife gives me a raking—hold still and don't flinch. If she seed it hurt she would go right on for half the night."

WOMEN MADE STRONG, HAPPY

Beecham's Pills Free Them From Constipation—the Cause of Most of Their Troubles

EVERY DRUG STORE IN THE WORLD KNOWS AND SELLS THEM

A great many women are now finding out that Beecham's Pills bring real relief.

Beecham's Pills are sure relief for constipation—the direct or indirect cause of more than half the sickness in the world, especially of women.

Don't neglect constipation. It soon becomes chronic—and dangerous. Buy a box of Beecham's Pills today and free yourself of constipation. If you would try them first: send to our Sales Agents, B. F. ALLEN CO., Dept. 26, 417 Canal St., New York, for FREE Packet of Beecham's Pills. Sold in boxes: 12 pills, 10c; 40 pills, 25c; 90 pills, 50c, by all Druggists.

WORMS

IN Children and Older Folk

cause many cases of constipation, flatulence, headache, nausea, bad breath, sleeplessness and emaciation.

A Dr. J. D. KELLOGG'S ASTHMA REMEDY

SICK WOMAN MADE HAPPY

Entirely Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mart, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound to build me up as I was all run-down, nervous and sick. I ached and hurt all over so that I was often compelled to go to bed, and I had to have most of my work done. No medicine seemed to help me until one of my neighbors who was taking the Vegetable Compound insisted on me trying a bottle of it. The medicine helped me from the first, and the best of all is that I can even sew again without that awful, nervous feeling I was used to having. And I used to take crying spells, with such a blue feeling that I cannot explain. Now all that has left me. I feel so cheerful, and I have gained in weight, sleep well and eat hearty. Oh! I wish I had words to express what this medicine has done for me! I am a housekeeper and do everything from the sewing to the washing now and it doesn't hurt me. You may use my letter in any way you wish. I will be glad to help any suffering woman to the road of health and happiness."—Mrs. B. F. Brannon, 404 Travis Ave., Mart, Texas.

Doubtful Compliment

Children often understand the purpose of remarks which they chance to overhear, especially if made concerning them, though the literal meaning of the words may not be grasped. This, evidently, had been the case with Martha, the four-year-old daughter of C. A. Jewett, for after he had offered thanks at dinner one evening recently, Martha unfolded her small hands, and, looking up to mother with about as much of admiration and affection as a child's face could express, and plainly wishing to say something nice of daddy, made this rather unexpected comment: "Mother, isn't daddy a perfect little devil?"

One pair of heels is often worth two pair of hands to some folks.

You know not what you can or cannot effect until you try.

Summer Find You Miserable?

It's hard to do one's work when every day brings morning lameness, throbbing backache, and a dull, tired feeling. If you suffer thus, why not find the cause? Likely it's your kidneys. Headaches, dizziness and kidney irregularities may give further proof that your kidneys need help. Don't risk neglect! Use *Doan's Pills*—a stimulant diuretic to the kidneys. Thousands have been helped by *Doan's*. They should help you. *Ask your neighbor!*

A Pennsylvania Case

Mrs. I. C. Barkley, N. Fifth St., Newport, Pa., says: "When I caught cold my back was lame and stiff mornings and into the day. If I stooped a sharp stitch took me in the small of my back. My kidneys acted too freely and I had headaches and dizzy spells. Doan's Pills regulated my kidneys and stopped all the trouble."

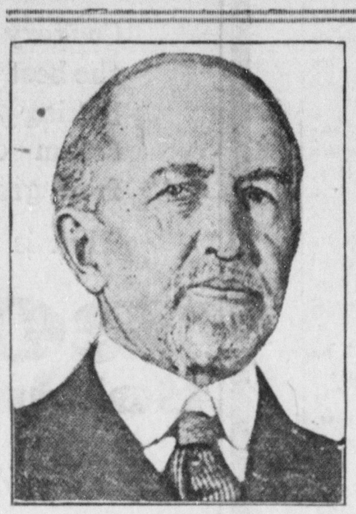
Prominent People

Gillett to Leave the Speaker's Chair



Speaker Frederick H. Gillett of the house has decided to become a candidate for the Republican nomination for senator from Massachusetts. The speaker reached his decision after several conferences with Massachusetts political leaders, including those in charge of the national campaign of President Coolidge. He will seek election to the place now held by Senator Walsh, Democrat.

Speaker Gillett has been a member of the house from the Second Massachusetts district since March 4, 1893, his sixteen continuous terms constituting a record of unbroken service not equaled by any other representatives now in office. He has been speaker since 1919, but was re-elected to that post last fall only after a long deadlock forced by the fight of the insurgent Republicans against the party organization.

His withdrawal from the house after March 4, next, regarded as a certainty no matter how the senatorial situation develops, means a realignment of the party organization there and probably a renewed effort by the LaFollette followers to secure additional recognition should they retain a substantial voting strength after this year's election.

Two Congressmen Stage Lively Scrap

Representative Thomas L. Blanton of Texas, Democrat, who has been in the limelight before, is in again. This time it's a fight between him and Representative William C. Hammer of North Carolina, also a Democrat. The fight, in which books and chairs were hurled around promiscuously and spectators scattered for cover, was staged in a meeting of the house committee that deals with District of Columbia affairs.

The battle was lively while it lasted, the two members swinging wildly and struggling to get at each other while spectators and other congressmen endeavored to keep them apart.

The trouble started when Blanton (portrait herewith) objected to the meeting being held on the ground he had not been previously notified.

Hammer said Blanton had "willfully misunderstood" an announcement about the meeting.

You're a garrulous old grandmother," retorted Blanton.

"That's not true," cried Hammer, "and you haven't the courage of a dog to say it."

"You're a liar," yelled Blanton.

Hammer swung and missed. Blanton swung and missed. All even.

As Blanton swung again—and missed—the North Carolinian picked up a folding chair and, reaching over the head of William F. Ham, president of the Washington Railway and Electric company, struck the Texan.

By this time the spectators that were not hunting cover were hanging on the coat tails of the contestants, and they finally succeeded in pulling them apart. Later on they went at it again and Representative Zihlman, Maryland, hastily adjourned the session.

Will the Vast Stinnes' Fortune Endure?

Dr. Edmund Hugo Stinnes (portrait herewith), who by the death of his father has suddenly become the monarch of one of the world's most gigantic industrial and commercial empires, is described by his associates as "a youth of engaging personality and winning urbanity." Although only twenty-eight years old, he served a rigorous technical and commercial apprenticeship under his father's unsparing tutelage, and subsequently was graduated from the Charlottenburg Technical school with the degree of doctor of engineering. He enlisted as a volunteer in the World war and advanced to a lieutenancy in the aviation corps.

Young Stinnes was constantly at his father's side during the latter's restless and manifold activities of the last five years and is possessed of first-hand knowledge of the mining, smelting and industrial branches of the Stinnes' enterprises. He will direct the properties in the Ruhr and Rhineland, while Hugo Hermann Stinnes, younger son, will oversee the family's interests at the headquarters in Berlin and care for the shipping and foreign properties.

The President's Oil Commission Reports

Here is a new portrait of Rear Admiral Hilary P. Jones of the special commission appointed by President Coolidge to study the problem of navy oil conservation. His colleagues are George Otis Smith, director of the geological survey, and R. D. Bush of the California state bureau of mineralogy. The commission has reported recommending that no more navy oil be exchanged for construction of navy reserve oil tanks by Doheny, Sinclair, or any other contractor. For the provision of such additional tanks in the Hawaiian islands and at other strategic points it will be necessary for congress to make large appropriations. Says the report:

"The prime purpose in retaining the oil in the naval reserves being safety, the administration of these reserves should be animated by principles of saving publicly owned oil for these future needs rather than of saving public funds from present expenditures. The choice between oil and dollars has to be made.

"The oil that now remains under governmental control, or that can be brought under such control, must be treasured not for its market value, especially in these days of low prices, but for its emergency value at some future date.

"Considerable funds will be needed to provide adequate tankage, considerable more to purchase oil to fill those tanks, and still more funds to test and develop possible additional reserves. Without money the existing reserves can neither be adequately protected nor fully utilized."

Cow Is Important Figure in Industry

Remarkable Variety of Articles Made From Milk.

Washington.—"If the humble cow ever aspired to trademark her products the average shopper would be amazed at the labels 'Made from milk' which would adorn his purchases—purchases ranging from horn-rim spectacles to chessmen, magazines to radio sets," says a bulletin from the National Geographic society's Washington headquarters.

"Consider a debutante's ball, which is a most inappropriate place to contemplate the unromantic cow. The occasion would lose much of its glamor if the cow didn't supply the milk which helps provide many other adjuncts than the ice cream.

"Yonder maiden's burnished golden hair is kept in place by a flaring comb, made of milk; she toys with a milk-handled fan; she made her toilet somewhat hastily with an array of articles largely made of milk, because she received her belated invitation from a procrastinating young man through a telephone receiver made of milk. She is jotting down her dance engagements on a program made of milk, while she chats during intermission with an escort flecking ashes from a cigarette in a milk-made holder.

"Sounds a bit far-fetched, doesn't it? But 3 per cent of casein in cow's milk today is the raw material for a kaleidoscopic array of manufactured products.

"Nor does this take into account that, for every six couples at the dance, somewhere in the background is one cow. For at our present rate of consumption every twelve persons consume the milk product of one cow.

Milk as Staff of Life.

"Bread has a reputation for being the 'staff of life,' but milk more nearly fulfills that definition. Substitutes for our customary breads may be had; but there is no substitute for milk. Our civilization depends literally upon a plentiful supply of good milk.

"Even the elimination of the casein from milk, the element which provides most of the by-products, would be inconvenient. Chemically, casein is the principal nitrogenous constituent of milk; popularly, it is the 'curd'; and its first and principal use is for cheese.

"Our animal immigrants have been neglected. Their importance deserves a society of their descendants. Economic geography has been influenced by the animal winners of our West. When, in 1626, a packet of the Dutch West India company landed on Manhattan island with a cargo of domestic animals and agricultural implements it paved the way for a principal industry of the Empire state of 1924. Economically, the New Amsterdam settlers were cheesemakers.

"After the Black Hawk war, in 1832, the progeny of these settlers shaped Wisconsin's economic destiny by driving their covered wagons up the west shore of Lake Michigan. Wherefore Wisconsin last year produced $9,000,000 worth of cheese.

"The very names of cheeses—Cheshire, Gorgonzola, Edam, Cheddar, Parmesan, and many others—read like a gazetteer. The genealogist, Sherlock Holmes of the family tree, might get important clues of people's origin by the cheeses they eat.

"There is a fascination, too, in the making of cheese. The spherical Edam cones are reputed to be dark red to this day because, in the days before pure food laws, a consignment was tinted with a harmless solution of carmine. Just why people like to eat in pink, rather than yellow, is a problem for the psychologists, but that preference not only keeps the cheese red, but it has virtually eliminated yellow tomatoes from the market, and causes a heavy monetary loss to salmon shippers if, perchance, their catch happens to be white instead of pink.

Some Decorative Cheeses.

"The Italian Parmesan cheeses are kept for several years and then are polished with a mixture of charcoal and linseed oil until they shine like ebony. The housewife throws moldy bread into the garbage pail, but when she buys Roquefort cheese she judges its quality by the green blotches, which are developed by introducing bread mold into the sheep's milk of which Roquefort is made.

"In recent years manufacturers have become active competitors of cheesemakers in buying casein. The substance is highly cohesive and is little affected by heat or moisture. Hence it is used as glue, and also as a binder in making glazed papef, in dyeing cotton cloth and in piecing together laminated furniture.

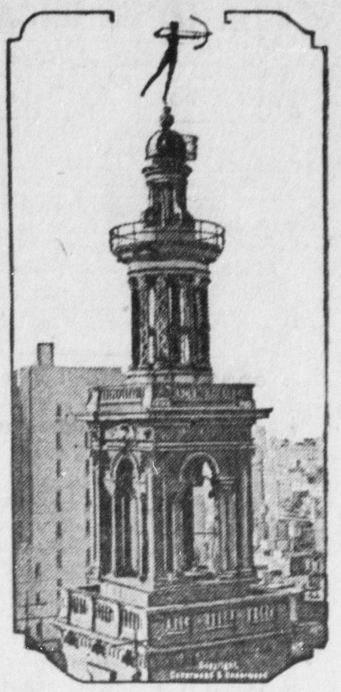
"If a drug store were to display on a single shelf its articles in which casein is used the exhibit would resemble a rummage sale. There would be earrings and shoe polish, oilcloth and medicinal tablets, photographic plates and strings of beads."

Says All Food May Soon Be Made by Chemists

Washington.—Artificial production of the world's food supply, emancipating man from absolute dependence on the soil and eliminating the dangers of famine and overproduction, was predicted before the convention of the American Chemical society here by Dr. Carl L. Alsberg, director of the Food Research institute of Leland Stanford university.

Dr. Alsberg said there is every reason to believe that the three groups of foodstuffs—carbohydrates, fats and amino acids—can or soon will be producible artificially.

NEW USE FOR DIANA



Diana of Madison Square garden, New York, the beautiful weathervane, may become the world's most exquisite radio antenna. James F. Kerr, general manager of the first radio world's fair, believes she can be so used, and his theory is being tested by radio engineers.

Finds Radio Wave Slower Than Light

Navy Astronomer Offers an Amazing New Theory.

San Francisco, Cal.—The discovery that the radio wave travels slower than light was announced by Capt. J. J. See, professor of mathematics in the United States navy, government astronomer at Mare Island navy yard, and well known authority on the theory of ether.

According to Captain See the radio wave travels around the globe with a velocity of 165,000 miles a second, while light travels 186,000. Captain See considers that his discovery in the velocity of the propagation of the radio wave about the earth may prove the most notable step in the development of the wave theory since Roemer's original discovery of the velocity of light in 1675.

Outline of Theory.

An outline of the chief conclusions communicated to the London Times is condensed below:

"1. The mean velocity of the wireless wave was found to be about 173,000 miles per second. This figure is about 13,000 miles per second less than that of light, but ten years ago we did not suspect the cause.

"2. In March last a wireless signal was sent from the sending station near New York to Warsaw, Poland, and reflected back in 0.054 of a second of time. The double distance is 8,500 miles, and the transmission comes out about 158,000 miles per second.

"3. The mean of the two independent determinations of the wireless wave is 165,500 miles per second.

Phenomenon Is Explained.

"4. What is the cause of this? The aetheron or particle of ether is only one-four thousandth part as large in diameter as the hydrogen molecule, so that compared to ordinary molecules of the size of oranges the aetherons would be like smoke from a cigar, and moving with a velocity of 294,000 miles per second. The wave travels through the solid earth as well as through the air and free space above the air, but is much resisted in the solid globe. As the ether is 689,321,600,000 times more elastic than air in proportion to its density—thus almost infinitely elastic—the medium cannot suffer a break in its continuity, yet the movement above the earth is held back by the slower movement of the wave in the earth. The resistance in the globe thus acts as a drag on the wave at its base. The result is that the wave bends around the earth, as long known yet heretofore not generally understood.

"5. This bending is quite analogous to the change of form of water waves as they run ashore—the top of the wave gains on the base.

"The results are of interest in connection with the wave theory of magnetism and the cause of universal gravitation, because they bear on the cause of the fluctuation of the moon's mean motion."

Monster Halibut Caught Off Boston

This giant fish, the largest gray halibut ever brought to Boston, was caught near the Boston light by Sam Scola, shown with the fish. The halibut has been out on exhibition.

Scientist Says He Has Weighed Atom

Paris.—The analysis of the atom, for which scientists have been searching vainly for years, has been achieved, according to an announcement by Prof. Camille Matignon to the Society of Industrial Chemistry.

Although the carbonic atom weighs a billionth billionth of one hundredth of a milligram and is ten billion times smaller than the smallest object perceivable through a microscope. Matignon showed that it was possible not only to weigh it but to analyze its constituents by a process of "ionizing."

Through this process, the atoms are charged with electricty, which accelerates the speed at which they revolve, thereby permitting an analysis of comparative calculations of their speed with respect to their weight.

The importance of the discovery is that possession of the tiniest particle of any substance now permits correct analysis of the whole. In such a way Matignon analyzed a cubic centimeter of air, proving that it contained one millionth of a cubic centimeter of helium.

CONFESS TO KIDNAPING

Two Sons of Millionaires Admit Killing Chicago Boy.

Nathan Leopold and Richard Loeb, each 19 years old, are under arrest in Chicago and have confessed to kidnaping and murdering 13-year-old Robert Franks, son of wealthy parents. The fathers of Leopold and Loeb are millionaires.

Explaining their horrible crime, Leopold said that the Franks boy was killed deliberately as a scientific experiment. The boy was first struck on the head with a chisel covered with cloth, and then strangled, while in an automobile. Leopold said that he and Loeb wanted to observe the various stages of death.

The crime was planned in detail for several months. Leopold and Loeb said they thought they had every detail so perfected that discovery would be impossible. Leopold, however, dropped his spectacles nearby a culvert where the body of the murdered boy was secreted. The shell rim of the spectacles happened to have a small mark which enabled detectives to locate the store where they had been purchased and the identity of the purchaser, who was Leopold.

Loeb's father is a vice president of Sears Roebuck Co., in Chicago. Leopold's father is a wealthy box manufacturer in that city.

ACADEMY ENDS TERM

Class of Thirty Receive Diplomas at Graduation Exercises.

The Bellefonte Academy closed today, after a very successful year in every phase of the school life. About 30 young men graduated.

The prize winners were: Oratorical—First Prize, Gilbert Welch, Parkersburg, W. Va.; Second Prize—William Manchester, Birmingham, Mich.

Latin Prize—Valen O'Neil, Pittsburgh.

Prize Essay on Temperance, offered by the W. C. T. U.—Leon Kutz, Lemoyne, Pa.

Mathematical Prize—James Hammond, Bolivar, Pa.

Historical Prizes—Joseph Barbeson, Binghamton, N. Y.; Andrew Cutler, Fredericktown, Pa.

Rensselaer Prize—Jack Bleecker, Philadelphia.

Letters were awarded to the following athletes: Basketball—Blackburn, Coffey, Cutler, Guarino, Householder, Lewis, Shiveley, Soisson, F. White, J. White, E. Williams, Manager Myers. Baseball—Blackburn, Buyny, Cutler, DiMeolo, Grimm, Guarino, Kutz, O'Neil; Rugh, Shiveley, Walsh, E. Williams, Wittman, S. Wilson, Manager. Track—Gwinn, Welch.

BASEBALL NOTES

Millheim Heads League with Perfect Score.

The opening gun of the 1924 baseball season was fired at Hecla Park on Decoration Day, when Bellefonte defeated State 5—0. A double header was played by Millheim and Centre Hall, Millheim winning both games 11—2 and 11—5. On Saturday Bellefonte went to Millheim and was defeatep by the close score of 4—3. State College went to Centre Hall the same day and in a 10 inning game nosed their opponents out by one run, the final score being 10—9.

The standing of the four clubsjis as follows:

	Won	Lost	Percentage
Millheim	3	0	1000
Bellefonte	1	1	500
State College	1	1	500
Centre Hall	0	3	000

Marriage Licenses.

Register Harry Rossman has issued the following marriage licenses:

Maxwell Smeltzer, Emma Walk,	Altoona Philipsburg
A. F. Woodring, Margaret E. Turner,	Port Matilda " "
Guy E. Moyer, Sarah Smith,	Bellefonte Centre Hall
Harvey W. Stover, Florence Armstrong,	State College " "
Frank E. MacIntire, Jr., Moranda Bohn,	Brackney Boalsburg
Lewis J. Hefright, Wiletta A. Hahn,	Lock Haven Pine Glenn
Michael Stover, Ruth Wells,	Philipsburg "
August Smith, Mary Duritzo,	Homer City Hawk Run
Calvin P. Grenoble, Carrie L. Hough,	Centre Hall Rebersburg
Charles E. Houtz, Dorothy M. Hall,	Unionville "

About thirty thousand baby chicks were shipped by mail one day last week, by the Kerlin Hatchery, at Centre Hall.

THIRD IN TRACK MEET

Penn State Gave Other Colleges Big Surprise at Cambridge.

Yale won the intercollegiate track and field meet in the Harvard stadium, at Cambridge, Mass., last Saturday, gaining the championship over the University of Penna. by a single point. Yale scored 28 points, to 27 for University of Penna. This marked the first time in 4 years that the championship was not captured by a western college.

Penn State gave the other colleges a big surprise, and somewhat of a scare, by winning third place with a comparatively small team participating. For Penn State, Moore won the 120 yard hurdle; Enck won the mile run, and Helfrich won the 440 yards run.

In the baseball game between Penn State and Ursinus, played at State College on Saturday, the visitors won, 4 to 3.

Near East Relief Bundle Day.

Everybody is requested to send cast off clothing in all sizes and descriptions to the Evangel cal Sunday School room, the Episcopal Parish house, or the Petrikin Hall on Thursday June 12th. The result will be sent to New York and baled by machine for shipping. It will finally go to the refugee camps in Syria, now sheltering thousands; to the Russian Caucasus, gradually emerging from results of seven years of war, massacre and famine; to Greece where a million refugees, including 95,000 fatherless children, are trying to find a place, and to the Near East Relief orphanages. The refugees in Greece are in three classes—those in industry under the League of Nations plan; women in need of work; old and sick men, women and children. Near East Relief has equipped stations where old clothes are cleaned, sorted and mended by the second class, sold to refugees of the first class at a very low price, just enough to cover transportation, labor and diftribution to third class. A man may go into an American old clothes station in the rags of the refugee camps and come out clothed in respectability and a fairly good-looking suit for a sum averaging 70 cents.

Read "THE REPUBLICAN."

Car Wrecked by Skid.

Last Thursday afternoon a Studebaker touring car owned by Aaron Weller, of Altoona, and driven by his son, was badly smashed when it skidded on the curve, just east of where the old Central Railroad bridge crossed the Nittany Valley state highway, nearby Bellefonte. The young man said that in reaching for the foot brake, when he approached the curve, he inadvertently stepped on the accelerator, so increasing the speed that the car skidded into the bank and upset. Both front wheels were smashed as well as the fender, top and windshield. The car was removed to Beezer's garage for repairs.

Ford Badly Damaged.

The Ford coupe of D. C. Baird, of Cumberland, Md., was considerably damaged Sunday afternoon, when he was attempting to pass another car going in the same direction. A front tire blew out, throwing him off the road, and wedging the car between a tree and a fence post. The front axle was bent, the left rear wheel smashed and the body frame broken. The car was brought to Beatty's garage where temporary repairs were made so that he was enabled to continue his journey.

Smoyer—Holcomb.

Robert Smoyer, of Philadelphia, son of Mr. and Mrs. Robert Smoyer, of Bellefonte, and Miss Bertha Holcomb, also of Philadelphia, were married at Elkton, on May 24. The first inkling his parents had of the young man's marriage was when he arrived home last Thursday with his bride. The young couple remained a few days, leaving on Sunday for New Hope, Pa., where the groom has secured a position with Ives Harvey, formerly of Bellefonte.

Keller—Knisely.

Wayne G. Keller, of State College, and Margaret Knisely, of Bellefonte, were married on last Wednesday evening in the Grace Methodist parsonage, at Altoona, by the Rev. J. C. Collins. They were attended by Mr. and Mrs. Robert O. Graham, of Altoona. The young couple will reside at State College, where the bridegroom is engaged in the automobile business.

READY FOR BIG RACES

Noted Drivers Arriving at Altoona for June 14 Contest.

All eyes of the motoring world have swung to the scene of the next great classic on June 14 at the fast Altoona Speedway, now that the annual 500-mile endurance grind at Indianapolis has passed into history for another year. The cars of the eighteen leading drivers of the world will be shipped to the noted Pennsylvania bowl as rapidly as the remainder of the entry list is chosen by the Altoona officials.

With the new speed records of Indianapolis as a proof of the higher marks possible for the small one-man cars, officials of the Altoona track who have arrived home declare that even the 125-mile high point predicted some weeks ago for the June 14 classic will be passed following the 108-miles-an-hour laps made by Hartz and others at the rough Hoosier oval.

Every one of the speed craft will be completely rebuilt at Altoona immediately upon arrival of the special express cars chartered to bring them east. Gearing, springs, carburation and lubrication systems will be torn down and reconstructed because of the difference in conditions on the Altoona speedway, the smooth mile-an-a quarter board oval, and the two-and-a-half mile brick course at Indianapolis.

Take This Tip From Experts

Cookery experts agree that the best and most healthful baking powder is made from cream of tartar, derived from grapes.

That is why they insist on

ROYAL Baking Powder

The ONLY nationally distributed Cream of Tartar Baking Powder

Contains No Alum—Leaves No Bitter Taste

Four Receive Diplomas.

Four Centre countians received diplomas from the Lock Haven Normal School at the commencement of that institution last week. They were: Eva Bailey, of Millheim; Marie Crain and Sarah Hanna, of Beech Creek, and Victor Haney, of Spring Mills.

New President of Juniata.

Former Governor M. G. Brumbaugh has been elected president of Juniata College, at Huntingdon. He served as president of the college before being chosen superintendent of schools in Philadelphia, which post he resigned when elected Governor.

THIS old bank, founded in 1856, has steadily grown in public confidence. It holds its high reputation because it is always ready to serve—often without thought of profit.

We are known by the friends we have made.

THE FIRST NATIONAL BANK
BELLEFONTE, PA.

Who Are the Real Community Boosters?

How many people in Bellefonte realize what a live, progressive community they live in? How many are as proud of their home town and its institutions as they should be?

Everybody knows what fine people live here—what splendid friends and neighbors we have—and we all know something about the solid integrity and high ability of our business men. But how often do our people stop to realize what splendid stores we have right here at home and close home—right in our buying district?

Keen competition has stimulated our local and nearby merchants to constantly seek the best goods at lowest prices in all the markets of the world. That's what makes this town and this district a real place to buy.

It surely pays to buy closest home. A part of every dollar you spend in your vicinity goes permanently into the building of its future prosperity.

If your home merchant cannot supply your needs, Altoona Booster members, with their unlimited facilities, enormous stocks and unequalled means for service are right at your door—ready and willing to supply the wants of those who live in this prosperous Central Pennsylvania district of which we are all a part and proud of the fact.

The home town first—ALWAYS.

Your district centre—Altoona—is your nearest big neighbor and you will always find your visits profitable.

Be a Community Booster—buy nearest home.

Altoona Booster Association

TO TRAIN ORGANIZERS

Committees Named for Various Duties in P. O. S. of A. Initiation.

This coming Saturday J. W. Yeisley, state organization manager of the P. O. S. of A., will hold an [organizers' training school in the P. O. S. of A. hall. Organizers are to be scattered over the entire country in a nation-wide drive for members.

As stated in last week's paper, nearly a thousand members are to be given their initiation on June 14 into this order as a result of the campaign in Centre County. The degree is to be given by the Huntingdon degree team, which is known throughout the state for its excellent work in this line. A mammoth street parade will be held in the streets of Bellefonte, to begin promptly at 7:30 P. M., after which the initiation will take place in the armory. The following committees have charge of the parade and other activities:

Decorating Committee: Ira Wright and assistants.

Chair Committee: J. Ellis Stine and Henry Bathurst, with assistants appointed by them.

Entertainment Committee: Edward Marley, John Fisher, James Harter and Elijah Kellerman.

Reception Committee: Charles A. Fromm, Charles Harrison, Edward R. Owens, John G. Payne, John Fisher, John G. Love, John Garthoff, Edward Peters, H. O. Harris, Thomas Beaver, H. A. Rossman and Edwin Williams.

The marshals for the parade are: Niles E. Davis, Guy Lyons and Herbert S. Miller.

PLUMBING FEATURES

A. E. Schad Offering Quality Goods at Attractive Prices.

The A. E. Schad plumbing house, of Bellefonte, has a wonderfully interesting advertisement in another column of "The Republican" in which high quality goods are offered at attractive prices. It may be read with profit by persons wanting the very best in materials and at the very lowest cost.

Guaranteed bath tubs at $24.75; complete low down combination closets, at $25; lavatories, at $7.98; sinks from $5.50 to $12.50, are but a few of the special features on hand. Buying in carload lots makes possible the reasonably low prices, it is announced.

NEWSY CHURCH NOTES

ST. JOHN'S REFORMED.

METHODIST EPISCOPAL.

All the services will be held at the usual time. Rev. C. C. Shuey will have charge of both morning and evening. Children's Day will be held June 15. The Sunday School picnic will be held the third Sunday in June.

LOST—Between Bellefonte and Port Matilda license No. 750-438. Return to this office.

Mrs. Bessie S. Stahl Dead.

Mrs. Bessie Sherlock Stahl, wife of C. K. Stahl, of Philadelphia, died in the Jefferson Hospital, early Thursday morning from a complication of diseases. Deceased was a daughter of Rev. Thomas and Catherine Sherlock, of Altoona, where Mr. and Mrs. Stahl resided for some years after their marriage. In addition to her husband, she is survived by two sisters, Miss Mary Sherlock, of Philadelphia, and Mrs. C. E. Shull, of Lewistown, also two brothers, Thomas, of Cleveland, and Clarence, of Harrisburg. At her request the remains were taken to the home of her husband's parents at Centre Hall, where interment was made Sunday afternoon after a brief service at the house.

Luther B. Stine Dead.

Luther Budd Stine, son of Mr. and Mrs. James Stine, of near Port Matilda, died at the home of his grandfather, Joseph Cowher, of Port Matilda, early Tuesday morning, May 27. Deceased had been in poor health for some time, but was not confined to bed until the day before he died. He was aged 19 years, 11 months and 27 days. Surviving are his parents and the following brothers and sisters: Elmer, of Port Matilda; Blair and Merrill, at home; Mrs. Charles Reynolds, of Tyrone, and Mrs. Wilbur Williams, of Philipsburg. Interment was made in the Black Oak cemetery, service being held in the United Brethren church last Thursday afternoon the pastor, Rev. Shelley, officiating.

William T. Mayes Dead.

William T. Mayes died at his home in Flemington at 6:30 o'clock Sunday evening of apoplexy, aged 77 years. Deceased was a former resinent of Hublersburg and was a member of the Lutheran church at Bellefonte. He is survived by one son, John, at home, and two daughters, Mrs. Philip Garbrick, of Kane, and Mrs. Bertha Bowers, of Philadelphia. Brief funeral services were held at the late home Wednesday afternoon at 1 o'clock, after which the body was taken to the Zion Lutheran church, where funeral services were held. Interment was made in the Zion cemetery.

Carson Smith Dead.

Carson Smith, a retired P. R. R. engineer, and a former resident of Bellefonte, died Sunday afternoon at his home at Brockwayville, of a complication of ailments, after an extended illness. He was aged 72 years. Mr. Smith's run for many years was on the Tyrone division between that place and Lock Haven. Following his retirement, he resided at Tyrone and later moved to Brockwayville. His wife, who was Anna Walker, of Bellefonte, preceded him in death some years ago. The boy was taken to Tyrone, where funeral services were conducted Wednesday afternoon at 2 o'clock.

Rev. T. S. Wilcox Dead.

Rev. Dr. Thomas S. Wilcox, one of the oldest members in point of service of the Central Pennsylvania Conference of the Methodist Church, died at his home in Williamsport last Friday. There are but two members of longer service. He served a number of years as secretary of the conference and for 6 years was presiding elder of the Williamsport district. He was at one time pastor of the Bellefonte Methodist church. He is survived by his widow, two sons, M. P. Wilcox, Oakland, Cal., and Thomas S. Wilcox, Jr., Mount Union, and one daughter, Elizabeth, at home.

Mary Elizabeth Hay Dead.

Mary Elizabeth Hay, 9-months-old daughter of Mr. and Mrs. Stacy Hay, of DuBois, died at 9:30 A. M. last Friday, a victim of the influenza epidemic which is sweeping the entire city. The child's body was intended to have been brought to Bellefonte for burial, but owing to the fact that both parents have been stricken with the dreaded disease, interment was made at DuBois on Tuesday. Mrs. Hay before her marriage was Miss Marion Lingle, daughter of Mrs. Howard Lingle, formerly of Bellefonte.

Mrs. Lilly Risk Dead.

Mrs. Lilly Risk, formerly of Bellefonte, died last Tuesday evening at her home in Altoona from a complication of diseases. Deceased was born in Syria, Jan. 1, 1875. Her husband died 8 years ago. Surviving are the following children: Mrs. Louis Shidaker, of Columbus, Ind.; Florence, Catherine, Bessie, Barbara, Dale, Emaline, Hayes and Alexander, all at home. Two brothers, Charles and Frank Mosier, of New York City, also survive. Interment was made in Bellefonte on Friday.

John M. Clark Dead

John Miller Clark, 12-year-old son of Mr. and Mrs. John Clark, of Waddle, died at the home of his parents last Thursday afternoon, from a complication of diseases. He is survived by his parents and the following brothers and sisters: Norwood, Eugene, Roy, Carrie, Mary and Beatrice, all of whom are at home. Funeral services were held at 1:30 P. M. on Sunday, from the late home and interment made in Myers cemetery.

John Williams Dead.

John Williams, well known fraternity janitor, of State College, died at his home on Monday afternoon, as a result of a drinking bout it is alleged, with a man from Bellefonte, by the name of Reed, who is still living. Williams was 55 years old and is survived by his wife and five children.

Samuel C. Snyder Dead.

Samuel C. Snyder, a former resident of Haines Twp., died at his home at Antes Fort, recently, from complications, aged about 50 years. Deceased was a son of Mr. and Mrs. Ira Snyder, whose home was in High Valley. He is survived by his wife and 5 children, also the following brothers and sisters: Charles, Daniel and Edward, of High Valley; Thomas, of Haines Twp.; Mrs. William Stonebraker and Mrs. Reuben Eisenhuth, of Coburn. Funeral services were held from the late home and interment made in the Antes Fort cemetery.

Frank P. Willits, Pennsylvania Secretary of Agriculture, will be the speaker at the big farmer's meeting to be held at State College on the evening of June 11.

An all-county basket-ball team is being fostered by John Payne, to be selected from the stars of the various county high schools.

NOTICE.

Of Special Corporate Meeting of the Members of The Bellefonte Hospital.

WHEREAS all the present Trustees of The Bellefonte Hospital have tendered their resignations as such Trustees, including the resignation as officers of any of them that are at present officers of said corporation, and resignation of membership on any committees of the Board, all said resignations to take effect upon the election of a new Board of Trustees to be elected at the corporate meeting hereinafter mentioned:

NOW NOTICE IS HEREBY GIVEN that a special corporate meeting of the members of The Bellefonte Hospital will be held at the Court House in Bellefonte, Pa., on

Monday, June 9, 1924,

at 7.30 o'clock P. M., for the following purposes:

1st.—To elect at said meeting a new Board of Trustees of The Bellefonte Hospital, consisting of fifteen Trustees, thereupon to succeed the present Trustees, and to act as Trustees of the said corporation both before and after the proposed change of the corporate name to the CENTRE COUNTY HOSPITAL, until the next annual meeting of the members of the corporation, or, if their successors should not then be chosen, then thereafter until their successors are chosen and qualified; a President, Vice-President, Secretary and Treasurer, and any other officers or agents of the corporation to be elected or appointed at a meeting of the said new Board of Trustees, as soon thereafter as conveniently may be, thereupon to succeed the present officers and to hold their offices until the said next annual meeting, or thereafter until their successors are chosen and qualified in accordance with the By-Laws applicable to the election of such officers after an annual meeting.

2nd.—To pass upon a proposed petition or application of The Bellefonte Hospital to the Court of Common Pleas of Centre County, Pennsylvania, for the improvement, amendment or alteration of its charter in change of the present articles thereof, as may be authorized at such corporate meeting including the change of the corporate name from "THE BELLEFONTE HOSPITAL" to "CENTRE COUNTY HOSPITAL," or otherwise as may be authorized at said meeting, and to authorize the President and Secretary of the Bellefonte Hospital to execute and acknowledge said petition and to affix the corporate seal of the corporation thereto, on behalf of the said corporation, and to authorize the Board of Trustees to institute and prosecute the said application to final decree of the Court, and to perform all other acts incident to the establishment of such improvements, amendments and alterations.

3rd.—To pass upon such By-Laws of the Centre County Hospital as may be proposed at said corporate meeting, to become effective, if adopted, upon the granting by the Court of said amendments to the charter; the present By-Laws of The Bellefonte Hospital, upon such new By-Laws becoming effective, to be repealed, abrogated and superseded by the said By-Laws of the Centre County Hospital.

4th.—To pass upon all matters connected with and incident to the purposes above set forth.

If found necessary or proper, in order to accomplish and complete the business of said meeting, the said special corporate meeting may be adjourned from time to time, by motion or motions adopted at said meeting or adjourned meetings, without requiring other notice of such adjournment or adjournments.

EVERY PERSON WHO HAS CONTRIBUTED TO THE RECENT HOSPITAL CAMPAIGN FUND AND EVERY PERSON WHO HAS OTHERWISE CONTRIBUTED TO THE BELLEFONTE HOSPITAL DURING THE LAST YEAR, IRRESPECTIVE OF HIS OR HER RESIDENCE, IS A MEMBER OF THE CORPORATION ENTITLED TO VOTE AT SAID MEETING AND AT SUCH ELECTION OF TRUSTEES, AND ALL SUCH PERSONS ARE URGED TO ATTEND SAID MEETING AND TAKE PART IN THE DELIBERATIONS THEREOF AND IN SAID ELECTION OF TRUSTEES.

Notwithstanding the power of adjournment, it is important, if possible, that all the business of this corporate meeting be completed on the above named date, without requiring any adjournment or adjournments of the meeting.

By order of the Board,
H. E. FENLON,
Secretary.

CHICHESTER S PILL

THE DIAMOND BRAND

Ladies, Ask your Druggist for Chi-ches-ter's Diamond Brand Pills in Red and Gold metallic boxes, sealed with Blue Ribbon. Take no other. Buy of your Druggist

Genuine BAYER ASPIRIN

Say "Bayer Aspirin"

INSIST! Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 24 years.

Safe — Accept only a Bayer package

which contains proven directions

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

Clear Your Complexion with This Old Reliable Remedy—

HANCOCK SULPHUR COMPOUND

For pimples, black-heads, freckles, blotches, and tan as well as for more serious face, scalp and body eruptions, hives, eczema, etc., use this scientific compound of sulphur. As a lotion, it soothes and heals; taken internally—a few drops in a glass of water—it gets at the root of the trouble and purifies the blood.

Physicians agree that sulphur is one of the most effective blood purifiers known. Remember, a good complexion isn't skin deep—it's health deep.

Be sure to ask for HANCOCK SULPHUR COMPOUND. It has been used with satisfactory results over 25 years.

60c and $1.20 the bottle

at your druggist's. If he can't supply you, send his name and the price in stamps and we will send you a bottle direct.

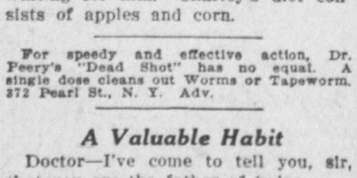
HANCOCK LIQUID SULPHUR COMPANY
Baltimore, Md.

Hancock Sulphur Compound Ointment—30c and 60c—for use with the Liquid Compound

H·L·S

Stearns' Electric Paste

The Quality Product



Sure Death to Cockroaches, Ants, Waterbugs, Rats, Mice, Etc.

Greatest known destroyers of food and property; also carriers of disease. Does not blow into food like powders. Ready for use. Money back if it fails. 35c and $1.50. Enough to kill thousands of roaches and ants. Sold by all druggists. Refuse substitutes.

U. S. Government Buys It

RADIO

Long Distance 1-Tube Regenerative Set Complete. Nothing Else to Buy

Only $21.98

Produces astonishing results. Receives music, speeches, information, instruction, sermons, etc., free to you, from broadcasting stations hundred of miles away, often more than 1000. Easy to operate. Cheapest means of entertainment ever devised. No knowledge of radio required. No electricity except supplied by dry battery included in offer. Satisfaction Guaranteed. Big bargain—only $21.98 for all parts and accessories complete. No money in advance.

Proud of Tame Muskrat

Many visitors are being received at lock No. 4 of the Barge canal in Waterloo, N. Y., to see the pet of the lock operators. It's name is Charley and he is a tame muskrat. He will answer to his name and come swimming, from whatever part of the lock he is at that time, to the lock wall after the morsel of food he knows is waiting for him. Charley's diet consists of apples and corn.

For speedy and effective action, Dr. Peery's "Dead Shot" has no equal. A single dose cleans out Worms or Tapeworm. 372 Pearl St., N. Y. Adv.

A Valuable Habit

Doctor—I've come to tell you, sir, that you are the father of twins.

Father—Well, doctor, I make it a rule to believe only half of what I hear.—London Answers.

He that is to die by the gallows may dance on the river.

A FEELING OF SECURITY WHEN YOU USE SWAMP-ROOT

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit-producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder medicine.

The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs.

It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything.

It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to try this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing, be sure and mention this paper.—Advertisement.

End of National Debt

Secretaries of the treasuries of the United States and of Colombia living in 2924 will have the pleasant task of paying off the national debts of their countries without asking the citizens to dig up a cent—that is, provided the Banco Mercantil of Bogota or a successor is ready to come across with the $5,574,523,952,3'0 that will theoretically be due to the United States and Colombia under the terms of a deposit of $10 recently made in that bank by Henry G. Granger of Bogota to encourage the spirit of thrift. The contract between the bank and the depositor calls for the payment of compound interest at the prevailing rate for 1,000 years, when the total is to be split fifty-fifty between the United States and Colombia.

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

Time to Quit

A very decided voice called up the club and asked: "Is my husband there?"

"Yes," replied an attendant.

"Playing poker?"

"Yes."

"Is he ahead of the game?"

"About two hundred, I think."

"Tell him to come right home."

Freshen a Heavy Skin

With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Advertisement.

Going Up

Doctor—Well, how is our patient this morning?

Sick Broker—Fine! My temperature slumped three points last night, but it rallied this morning and is now above par.—Boston Transcript.

If the first baby jolts the scales at nine pounds it doesn't matter what the second one weighs.

Children Cry for

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

LEGION'S INFLUENCE

By N. S. SINNOTT, United States Representative From Oregon.

THE American Legion is here to stay. It has a patriotic mission in our private and public life. It is fulfilling that mission well, and will ever be an important factor in inculcating a deeper love for our country and its institutions. Composed of the best and most patriotic of our young manhood, who demonstrated their patriotism and willingness to sacrifice their lives in war; in peace, the same promptings of patriotism will ever make them zealous for their country's welfare. I know that congress gives careful consideration and weight to the views of the Legion. This is attested by the fact that much of the legislation passed by congress for the ex-service men, land laws, care and hospitalization for the disabled, was passed in compliance with the request of the American Legion.

KANSAS' BONUS LAW HOLDS UP MEMORIAL

Red tape confronting members of the American Legion in Great Bend, Kan., may defer erection of a memorial to Allwyn Harrison, a Barton county veteran for a short time, but the Legion will build a monument to this man who lost his life in the World war.

Under the Kansas bonus law, Harrison's heirs are entitled to his bonus. His parents are dead, and he had no brothers and sisters; only several uncles and aunts are living, all of whom are entitled to a share of the compensation.

These heirs suggested that a monument be erected in the boy's memory, and all made assignments of their share to the Legion. This was agreeable until the Kansas board got the case. The law specifically says that the bonus cannot be assigned to any purpose except for support of wife or children. As a result the bonus board will be required to make out 15 different checks to pay each of the heirs the small share of the claim they are to receive. Then the Legion must arrange to get these checks indorsed and paid into a fund for the memorial for the young man.

Needy German Soldier Cared for by Legion

At Chateau Thierry, with Americans too close for comfort, Herman Schmidt, a German soldier, suffered a shattered leg from the explosion of a shell. A few months ago Schmidt went to Chicago, where relatives obtained work for him in a grocery, but the old wound gave him considerable pain.

Schmidt kept his trouble to himself, imagining if it were known that he had been a German soldier members of the American Legion would have him deported. Infection set in and the man's life was endangered, so despite his protests a brother told a neighbor, a member of the American Legion.

The next day members of the Legion again surrounded Schmidt, but this time their presence was a comfort to him, as they carried him to an ambulance and sent him to a hospital. Now Schmidt regards his former enemies as men of human qualities, and the Legion as a ministering angel.

Iowa Flag Decoration Plan Given Approval

The Shenandoah plan of uniform flag decoration, originated in Iowa by a member of the American Legion auxiliary, is rapidly spreading to all sections of the country. This plan calls for placing of an iron receptacle in the sidewalks of the business districts of cities at regular intervals in which flagstaffs of equal height are inserted and from which emblems of exact size are flown. The plan was first tried in Shenandoah, Iowa, and reports now indicate that it is in use in Florida, California, Michigan, Minnesota, Nebraska, the Dakotas and other states as well as in the state of its origin.

Texas Post Offers to Help Houston Mayor

Services of members of Dismuke post of the American Legion in Houston, Tex., have been proffered to Mayor Holcombe of that city by post officials to aid in fighting fires or in helping to apprehend "firebugs."

The offer was made following an epidemic of fires in the city, many of which are suspected to have been of incendiary origin. Firemen have been kept busy answering these calls.

Splash Pool Is Donated to City by Idaho Post

A splash pool for the children of Emmett, Idaho, has been donated to the city by the local American Legion post. The pool was constructed in a city park, but all expense was borne by the Legion members, who expect return of some funds from operation of park concessions during summer months. First work was done by a group of Legionnaires, to whom luncheon was served by women of the auxiliary.

Quai in Geneva Which Will Be Named for Wilson

The beautiful Quai Mont-Blanc, Geneva, which flanks the Rhone river near the entrance of Lake Leman and which will be renamed the Quai President Wilson on July 4 when a commemorative tablet overlooking the quai and the lake will be dedicated.

Save Wild Flowers Is Annual Appeal

"Nature Lovers" Asked Not to Despoil Woods.

Washington.—Help save the wild flowers—especially the dogwood! Each spring an appeal is being made to the chivalry and thoughtfulness of the public in behalf of America's vanishing and defenseless wild flowers.

For some obscure reason there are countless Americans of both sexes who would scorn to attack the little animals of the woods and fields, but who do not hesitate to wage relentless warfare on the flowers. When spring trustingly sends out the most delicate blossoms these thoughtless "nature lovers" go out to pluck, tear and cast aside. Clumps of pale-colored bowers that made a picture in their original setting of grass, trees and sky soon lose their freshness when carried off in bouquets. Most people know this. Yet toward the close of a spring Sunday every suburban road every street car is strewn with wilted flowers tossed aside by tired holiday makers.

Despoil Spring Beauty.

These flowers might have bloomed for another week to give pleasure to many more people. But that is not the real tragedy of the wild flowers. The worst of the situation is that in so many cases the flower pickers are permanently despoiling the beauty of spring.

Take the dogwood, for instance. This is not a tiny plant to be easily pulled up by children. It is a tree, generally about the size of a fruit tree. Yet the dogwood is being more ruthlessly destroyed than any other native tree or plant. Botanists say that at the present rate of destructiveness the native American dogwood will be extinct within twenty-five years.

The Wild Flower Preservation society, which campaigns every year to save the American flowers, emphasizes one particular plant each spring. This year dogwood is given the spotlight because it is so rapidly disappearing.

The dogwood tree is one of the most beautiful trees that can be found, and it is a native American. It once grew in our woods in profusion, and the common flowering variety is still found from Canada to Florida along the Atlantic coast and quite far to the west. Another variety grows along the Pacific coast. It is a rather sturdy tree, resistant to disease and adaptable to a variety of growing conditions.

When the wild dogwood blooms in early spring the tree becomes a mass of white. Each white petal has a distinctive notch in the edge which makes the dogwood blossom one of the most attractive motifs for artistic design. The so-called blossom, by the way, is not really the flowers of the tree at all. The white petals are technically called bracts or the involucre. They are only modified leaves. The flowers are the little bunches of light green which cluster in the center of the white involucre.

Dogwood Blossoms Perishable.

A dogwood tree in bloom against a background of other foliage transforms any country road or garden. The same may be said of the dogwood when it bears its crop of red berries in late autumn. At both seasons the dogwood branches seem to shriek, "Carry me home," to the country tourist. At least, that is how he—or she—interprets the message of the tree. The result is, generallly, that the passer-by goes up to the tree and tears off a few sprays. The tearing process strips down the bark, leaving open wounds. If the wounds are large fungus disease may set in and the tree may die. This happens only too often.

The Wild Flower Preservation society is urging motorists and hikers to enjoy the dogwood on the tree, carry away a mental picture of it in all its freshness, and leave it for others to enjoy. If branches must be taken home, they should at any rate be cut clean with a sharp knife, so as to avoid injury to the tree.

That so much dogwood is destroyed is particularly unfortunate because the sprays are so perishable that the cut branches are of little use. Florists know how to pack them in moss, but the Sunday excursionist simply trails along in the hot sun with the branches over one arm, or else he lays them down in a jolting, dusty automobile. The white petals become brown and crushed, and once faded cannot be revived.

There are a number of wild-life preserves on which the wild flowers, as well as animals, birds, and insects, receive protection. These shut-off areas, each covering from 50 to 500 acres, are guarded by watchmen, to make sure that the flowers and wild creatures have a chance to grow and multiply unmolested.

Police Delay Arrest Until Bread's in Oven

Lynn, Mass.—Lynn police went to the home of Mrs. Mary Brown to arrest her on the charge of keeping and exposing liquor for sale. Mary was in the midst of a bread mixing and, at her plea that the batch would spoil unless kneaded, the officers waited until the dough was ready for the oven. Then they arrested her.

WOMAN PROVIDES HOME FOR CONVICTS' CHILDREN

Sophie Lyons, Former Criminal, Leaves Fund.

Detroit, Mich.—A perpetual trust fund, the proceeds of which are to be devoted to the establishment of a home for children whose parents are prison inmates, is created under the will of Sophie Lyons Burke, former international confidence woman, who died here recently. The will, discovered in a safe deposit vault, drilled open in the presence of court attaches, does not indicate the amount to be devoted to the creation of the home, but leaves the residue of Mrs. Burke's estate to that purpose after numerous bequests to relatives and friends.

In providing for the children's home, the will specifies that any child between two and four years of age, one or both of whose parents may be a prison inmate, shall be eligible to admittance to the home. Provision also was made for 375 annual subscriptions to a popular weekly periodical to be distributed among prisons throughout the country.

Mrs. Burke, who gave up a career of crime to preach observance of the law and the futility of crime, left an estate valued variously at from $150,000 to $300,000, mostly in Detroit real estate, where she made her fortune by investing and speculating in land.

When the safe deposit vault was opened it was found to contain besides numerous deeds and other papers, considerable jewelry knotted in the bottom of an old stocking. The jewelry was estimated to be worth $25,000, and included one ring set with 12 diamonds, which was identified as the engagement ring given her by "Jimmy" Burke when the couple were at the height of their career.

GERMAN MAN POWER LOST BY EMIGRATION

Population Cut 6 Per Cent Since 1913.

Berlin.—Germany had 6 per cent less population at the beginning of 1924 than it had at the beginning of 1913, according to the estimates of the German statistical office.

The total population is now placed at 63,500,000.

An analysis of the figures shows the decrease in man power has been more marked than the general decline.

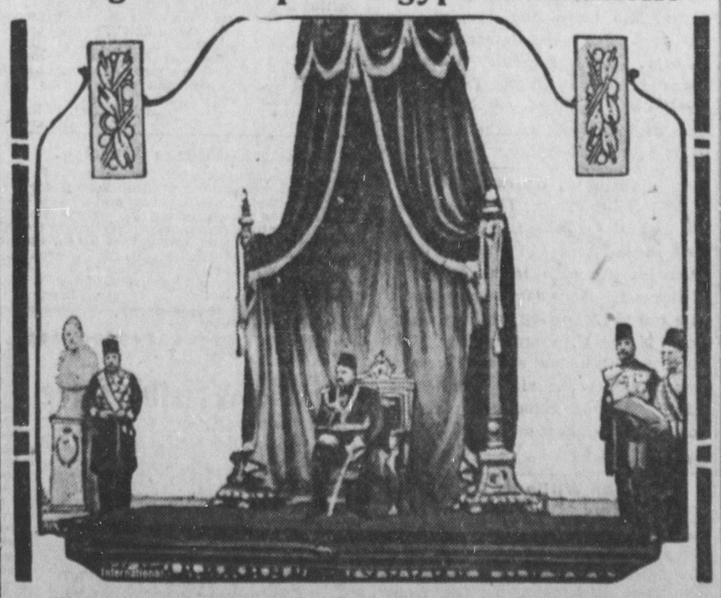
There are now 7 per cent fewer men between the ages of fifteen and sixty-five, and the number of able-bodied men between twenty and forty-five has been dropped 13 per cent. Also the proportion of children under ten has dropped from 33 per cent to 18 per cent.

Emigration is making violent reductions in population of the very character that Germany needs most for reconstruction.

Discussing the migration of the sturdiest of Germany's young farmers, industrial workers, tradesmen and technicians, Doctor Berger, counselor to the cabinet on subjects relating to emigration, says Germany's ability to reconstruct itself speedily is being undermined by the flight to the new world.

While he does not advocate the restriction of emigration, he suggests that the social condition of the working class must be raised so as to make it more inviting for the workers to remain in Germany.

King Fuad Opens Egypt Parliament



King Fuad of Egypt is shown here viewing the ceremonies attending the opening of the first Egyptian royal parliament. His ministers are seated at either side of him.

Will Mobilize Peace Strength

September 12 Fixed as Day for Call to Arms.

By JAMES P. HORNADAY

Washington.—The plans for an army mobilization on the 12th of next September to demonstrate the peace strength of the country's military establishment are taking form. Secretary of War Weeks has approved the mobilization plan as outlined by the general staff and so it seems certain that the program for this demonstration as originally planned will be carried out.

Orders relating to the details of the preparations for the mobilization will go out shortly to the corps area commanders and these commanders will communicate the details of the plan to regular army units within their jurisdiction and to O. R. C. commanders, to state adjutants general, etc. It is not proposed that the preparations for this demonstration shall place any considerable amount of work on the various units that go to make up the peace strength of the military establishment.

It is explained that all the general staff here has in mind is that every organized body of men or women that would heed an actual call to arms in case of an emergency shall on the morning of September 12 come to attention, just as they would in case there was actual trouble. Under the revised plan as approved by the secretary of war, hospital units, Red Cross units, boy scouts organizations, as well as all men who have attached themselves to the reserve corps of the army will be expected to report for duty on the morning of September 12.

Summer Maneuvers.

The September mobilization is not to take the place of the regular summer maneuvers. In the Fifth corps area the regulars, the O. R. C. and the National Guard will follow this summer practically the same program they followed in the summer practice drills.

In some of the corps areas the corps commanders are planning to have the various military units under them practice on mobilization in advance of the September 12 event. This is a matter, it is explained here, that is entirely in the hands of the corps commanders.

General John J. Pershing has entered heartily into the spirit that is behind the September 12 demonstration. It may turn out, however, that this demonstration will not mark his retirement from the army, although he is eligible to retire on that day. Secretary Weeks has notified President Coolidge that he would like to have General Pershing remain at the head of the army a while longer. The general will, however, it is understood, retire as chief of staff on the day he becomes eligible for a place on the retirement list.

Within the next year there will be some sort of a test of the industrial mobilization plan that has been worked out. Here is how the plan would presumably work out should there ever be another call to war:

How It Would Work.

Picture to yourself noon, the first day of open preparations. Telegrams are sent to the 14 district headquarters in the United States where procurement agents are located. From these radiate telegrams to thousands of manufacturing industries who immediately place into operation the preconceived plans they had for the production of war material. The bird cage manufacturer turns to the making of fuses. Everything goes on a war basis. Reserve officers previously selected take their posts in the production program fully acquainted with their duties and with what has been planned and done to prepare the way. An automatic inventory of the most needed criticial raw materials is immediately commenced.

No plant in the country is overloaded beyond its capacity, none of them will find it impossible to obtain raw materials or power to carry on their program and if our plans are laid deeply enough there will be few, if any, industries which will have to lay down their work because their activities are so non-essential that they must be suspended and because they have been neglected in the placing of war orders. Equipped from the available war reserves the first two armies will, under the plan prepared by the general staff, be able to enter the theater of operations; and by the time the third army has been organized and trained, its equipment will be on hand.

Less Than 1 Child in 4 Has Perfect Health

Washington.—More than 75 per cent of American school children have physical defects, Dr. Herman J. Norton, director of health education of the Rochester (N. Y.) schools, told a conference of home economics supervisors at the Interior department.

He quoted a recent survey of the 22,000,000 children and declared 15,000,000 had bad teeth; 2,000,000 to 4,000,000 fallen arches, defective spines or joints; 3,000,000 to 5,000,000 malnutrition; 5,000,000 poor eyesight; 1,000,000 more or less deaf; 1,000,000 had had or did have tuberculosis; 25,000 had heart trouble, and 200,000 were mentally defective.

A poor man isn't necessarily a cheap man.

To Seek Data in the Far North

Captain Bartlett Sails for Arctic on the Bear.

Washington.—Capt. Robert A. Bartlett, famous Arctic explorer and companion of Peary on his successful polar trip, has been commissioned by the National Geographic society to gather data in the Far North in preparation for future aerial explorations of the Arctic regions.

Captain Bartlett is aboard the United States coast guard ship, the Bear, America's most famous "ship of peace," from which he will make his observations during the Bear's annual cruise in Alaskan and Siberian waters.

A romantic feature of the voyage is the fact that the ship which went to rescue Greely, now, in making what may be her last trip, helps pave the way for future air exploration of the Arctic.

Will Study Aircraft Bases.

Captain Bartlett will study especially the locations available in Alaska for bases of operation for aircraft which would fly a zigzag course over the million square mile area between Point Barrow and the North pole—which area is wholly unexplored. He will report upon harbor facilities for supply ships, possible landing places for various types of craft between Nome and Point Barrow, the terrain across country and along the coast between those points, and upon air and water temperature, wind and sea surface conditions.

The Navy department has extended Captain Bartlett every co-operation in his work, which will be of great value as a basis of explorations such as those proposed when the Shenandoah's North pole trip was planned.

As the foremost living authority on practical navigation of Arctic waters Captain Bartlett was named a member of the polar expedition board and during the consideration of the Shenandoah's flight he furnished much valuable data.

An air exploration of the unknown million square miles between Point Barrow and the pole probably would be made in summer months, a time of year when no explorer ever went there, because the unbroken ice of winter is essential for surface travel. Ice floes and open water are aids to air operations in the North, while the summer months promise comfortable flying temperatures and 24 hours of daylight.

"The lure of a million square miles of unknown area, which may reveal land bodies that will be of use when commercial air routes are established across the pole remains a challenge to America," said Captain Bartlett, before he departed.

"Our flag flies at the pole and at Point Barrow—it is up to Americans to find and claim what lies between."

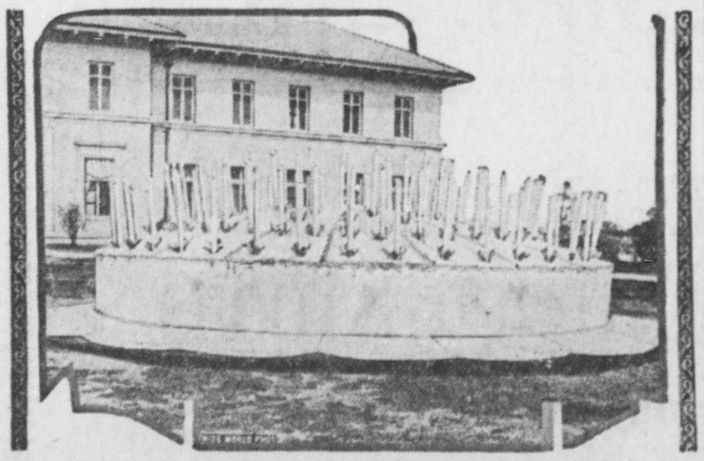
On Golden Anniversary Trip.

The historic vessel, on her golden anniversary trip will sail out of Seattle, going north to Unalaska, the Pribilof islands, to St. Lawrence and St. Michael islands, to Nome, and thence to ports of call where mission stations and Eskimo schools are visited. She will touch Point Barrow and cruise back to Bering strait.

The Bear was launched 50 years ago this spring from the ways at Grennock, Scotland, and was a Dundee sealer before the United States government bought her. Every year since 1883 she has made the lonesome cruise far beyond the white men's frontiers to administer law among Uncle Sam's Eskimo wards and protect his remote property on seal islands.

While the Bear is in Arctic regions she is judge, jury and clergyman. An incident of a recent voyage was the return of an Eskimo maiden to Nome as a witness against a young Eskimo who, having murdered a fellow Eskimo and a missionary, fared forth to set up "the Empire of the Eskimos." The commander holds court, marries, and conducts funeral services, and the crew aid the schools, attend the sick, and perform numerous errands of mercy.

Orphan Asylum's Birthday Cake



The largest birthday cake that was ever baked in the history of the country was made at the orphan asylum at New Orleans, La., that is maintained by the Society for the Relief of Destitute Orphan Boys on the occasion of its one hundredth birthday. An additional endowment of $100,000 was raised and as each $1,000 was subscribed an electric light was lit on the giant cake.

DIPLOMAT FROM EGYPT ADMIRES YANKEE WOMEN

Not Surpassed Anywhere, He Says, but in His Heart He Is Lover of Open.

Washington.—A man from the desert has forsaken the great barren spaces for the whirl of Washington social and diplomatic life.

But for A. M. Hassanein Bey, first secretary of the Egyptian legation, the moonlight nights, sandstorms and hardships of the desert are more attractive than the elaborate ballrooms and colorful receptions which are inseparable adjuncts to diplomatic life in America.

Hassanein Bey is one of Egypt's favorite sons. While only in his thirty-fourth year, he has won distinction as a soldier, athlete, adventurer, scholar and horseman. He is a true Egyptian and his love for the desert and for his people is profound.

If you were to meet Hassanein you would see a young man of medium height, slender and wiry of body. A neat black mustache, a pair of piercing jet eyes and a head of neatly groomed, coal-black hair give his lean, olive-complexioned face the stamp of oriental romance.

His four years at Oxford university are reflected in his speech. His English is as nearly perfect as his native language. He is now writing a book in the English language of his adventures in trekking across more than 5,000 miles of desert waste.

Hassanein is the best swordsman in Egypt. Each day you may find him practicing with his instructor at the Racquet club, preparing himself for competition in the Olympic games. Aside from this, his skill with his hands, keen sight and speed make him a feared opponent with boxing gloves. He is fond of boxing and played hockey while in England.

He loves horses—but best of all his Baraka, a chestnut horse, which he considers the best in his native land for desert travel.

Most of all he loves adventure. "It's more or less inherent in every one of us."

"I am favorably impressed with America and her people," he said. "I admire American women. They are very energetic and seem much interested in community work. I don't think they are surpassed anywhere."

Bird's Calls Tell Time

Hartford, Conn.—Scientists who have just returned from an exploration of uninhabited islands off the coast of Chile declared they found a bird whose cry tells the time of day. This creature, the jakar, is like a giant guinea hen. With its mates it screams at 9 p. m., again at midnight, and an hour before sunrise, its distant screams sounding like faint bugle notes.

It is surprising how many really good people there are in the world—if one can take their word for it.

THE AMERICAN LEGION

(Copy for This Department Supplied by the American Legion News Service.)

AIDS DISABLED MEN AND THEIR FRIENDS

A ministering angel is actually thought of as a Red Cross nurse, a Sister of Mercy, or some woman who gives unstinted service. But in J. G. Jeckering, a Knight of Columbus secretary at the National Military home in Dayton, Ohio, disabled veterans of the World war believe they have found the male variety.

Jeckering, who was a sergeant-major of artillery during the World war, took up K. of C. work almost immediately following his return from service. Much of that time he has been stationed at the Dayton home, where scores of World war soldiers are now receiving care.

His work daily brings him to the bedside of disabled men, to whom he administers comforts and performs the little duties that mean so much to the disabled man. In addition to these duties, Jeckering finds time to visit the unfortunate veterans in jails and penitentiaries, looking after the burials and funeral arrangements of

J. G. Jeckering.

those who die away from home, and cheering the bereaved ones by comforting words as to their loved ones and their last moments.

In district work for the American Legion, Jeckering takes a prominent part. He is a member of the Legion welfare committee of the state, and is serving a term on district Americanization committee.

When the Knights of Columbus in Dayton recently unveiled a memorial tablet to World war veterans, as a World war memorial in that city, National Commander John R. Quinn of the American Legion was present to deliver the principal address. He was secured principally through the efforts of Jeckering, who handled many of the arrangements for the unveiling ceremony.

Interesting Relics in Pennsy. Post Library

The library of the Frankfort (Pa.) post of the American Legion is one of the most interesting collections to be found in the state. More than 1,400 books are available. But the historical relics of the post are of principal interest. The first American flag to go over the top during the World war, presented to the post by Edward Holden, honorary colonel of the One Hundred and Sixty-eighth infantry battalion of Woodstock, Canada, is one of the prized possessions. Other valuable relics are an American ambulance flag, used in Italy during the war, a flag that was used in the centennial celebration in Philadelphia in 1876, and a Texas state flag captured at the battle of Gettysburg.

"See America" Journey to End at Convention

A group of Legionnaires of Shamokin, Pa., make the annual pilgrimage to the national convention city an opportunity to "See America First."

When the Pennsylvanians arrive in St. Paul this year, they will have completed a long circle tour through the Canadian Rockies, to the Pacific coast, Yellowstone park, Pike's peak and other points of interest in the West. Two pullmans will be necessary to care for the tourists on the trip, which will cover about 25 days. The trip will end at St. Paul in time for the national convention.

Committee Named to Investigate Radicals

A secret committee to investigate activities of alleged radicals has been appointed from members of the Wyandotte post of the American Legion in Kansas City, Mo., post officials say. This committee is expected to co-operate with the Department of Justice, and some work is already outlined. The committee is the result of activity of certain elements in Kansas City, Kan., and press reports of a national movement for pacifism.

Fire Chief on Warpath

Fire Chief Olire's gunning for the fellow who used to live next door to a certain fire house in the outlying district.

"This goof sold his home and moved away," said the chief, "and we all thought it was because his wife had died. I met him on the street the other day and asked him why he'd moved, and the fish replied:

"'I'm going to get married again, and I had to beat a fireman and a policeman to the wire to do it. A firestation's no good neighborhood decoration after an experience like that.'"

And now Chief Olire thinks the firemen have been slandered.—Houston Post.

The occasional use of Roman Eye Balsam at night will prevent and relieve tired eyes and eye strain. 372 Pearl St., N. Y. Adv.

Profit in "Waste"

France is putting to use the seeds and skins of grapes, converting them into seed oil and seed cakes, in which form they find a ready sale. It is asserted that it makes a satisfactory substitute for castor oil in the lubrication of high-speed internal combustion engines, and that the cakes and silage of wine, residue, including both skins and seeds, are useful as stock feed. Last year a seed-crushing plant at Perpignan, Pyrenees-Orientales, carried on profitable operations, and it is said that at least one additional factory of this kind will be placed in operation in the wine region.

Relationship

Muriel—I don't know whether to marry Ferdie or merely be a sister to him. What do you think, dear?

Madge—Oh, Ferdie's all right for a husband, but I wouldn't want such a boob for a brother.—Boston Transcript.

Unstoppable

Magistrate—Not even Solomon with all his wisdom could stop a woman from slamming the door when she is in a temper.—London Tit-Bits.

Was a Great Relief

"What did you think of the ending of Scribbler's latest novel?"

"It was a great relief."

Discoverer of Tut's Tomb Searched for Many Years

Back of all the news about that prominent Egyptian ruler, Tut-Ankh-Amen, has been the unceasing effort of Howard Carter, who spent 30 years searching for the tomb of the monarch now known to the civilized world far better than any other king that ever held the scepter in the Nile valley. Americans played a large part in the eventual discovery of the great archeological treasure unearthed by the English Egyptologist, which lends a peculiar interest to his visit here. The thoughtless who look merely at the results of such long, tedious and costly hunts as that for the tomb of Tut-Ankh-Amen fail to take into consideration the heroic patience that is willing to spend a lifetime without any certainty of a final reward, such as came to Mr. Carter when he opened the unlooted tomb.

Carrying On

"And 'ow's yer 'usband keeping, Mrs. 'Iggins?"

"'E ain't keepin'; 'e's on strike. It's me that's doin' the keepin'."

The most brilliant qualities become useless when they are not sustained by force of character.

When our hatred is violent it sinks us even below those we hate.

Age 31 Has Tragic Meaning for Average Man or Woman

U. S. Life Tables show health span extends only from 18 to 31—Earnings fall off rapidly after 40

Physical freedom and full vigor—what are they worth to you? This is a question the average American can answer from his own bitter experience—for at age 31 the average American begins to slip. After 40 his earning power drops off rapidly. These appalling facts are shown by the United States Life Tables, 1920.

Age 31! The age at which men and women should be entering their period of greatest usefulness and happiness! The beginning of the supposed "prime of life."

Not the prime of life. The age of decay! What causes contribute to this fearful condition?

Unwise eating. Sleeplessness. The loading of the body with drug stimulants, which appear to *give* added energy, but actually *borrow* this energy from the body's own reserve.

Every school child is taught to avoid stimulants. Most mothers enforce the *no-coffee* rule for children. Then comes maturity—and the squandering of the reserve strength which the body has stored up. Figures show that the average American is able to stand the pace just 13 years. Then, with half his life yet before him, he hits the down grade.

Medical literature classifies caffein as a poison. Like strychnin, it is sometimes by doctors given in cases of heart failure. The average cup of coffee contains the usual dose of caffein administered in these cases.

Coffee contributes no nourishment to the body. Its only virtues, as a beverage, are its warmth and flavor. A hot, appetizing, *drugless* drink is a benefit with every meal.

People in 2,000,000 American homes enjoy such a drink in Postum. A drink with the rich, mellow, full flavor and fragrance of roasted whole wheat and bran—flavor which people in 2,000,000 homes like better than any other.

Try Postum for thirty days—you can't expect to rid yourself of the effect of a habit of years in a day or two. Know that you are enjoying a drink which *contributes*, rather than robs, reserve strength. We will give you—free—a full week's supply of Postum to start you on your thirty-day test.

Ask for either Postum Cereal (the kind you boil) or Instant Postum, the easiest drink in the world to prepare. Either kind costs less than most other hot drinks. With your week's free supply, we will have Carrie Blanchard—nationally famous for the goodness of her Postum—send you her own directions.

After 31, what? Take one easy step in the right direction, by sending for your first week's supply of Postum—*now!*

Here and There.

Mrs. James Barry, of New York City, is attending her son's graduation at the Academy.

Mrs. Charles Noll, of Clearfield, spent the week-end in Bellefonte, visiting friends and relatives.

Jesse K. Cox, of Reading, was a week-end guest at the home of his sister-in-law, Mrs. Lucy A. Cox.

Fred Lane, of Johnstown, was a visitor at the home of his parents, Mr. and Mrs. John N. Lane, the latter part of last week.

The Woman's Club will hold a food sale at the Variety Shop, Saturday, June 7. Home-made bread and rolls. Sale opens at 11 A. M.

Mrs. Wayne D. Stitzinger, and children, of Newcastle, are visiting at the home of the former's parents, Mr. and Mrs. J. Kennedy Johnston.

Doyle Eberhart, of Chicago, has given up his position in the "Windy City," and at present is visiting here at the home of his father, Harry Eberhart.

Thomas Beaver was a business visitor to Atlantic City on Monday, in connection with the estate of the late Mrs. Sarah Hayes, of which he is an executor.

Don't neglect that cough. Wenck's Glycerole of Tar and Wild Cherry will give relief, without harmful dope or alcohol. 25 and 50 cents, all Druggists and Dealers

Miss Daise Keichline left on Tuesday for Pittsburgh, where she will spend a few days, going from there to Battle Creek, Mich., to remain for about a month.

The Thimble Bee of the ladies of the Reformed church will be entertained by Mrs. Richard Taylor and Mrs. Shutt, on Friday afternoon, at their home on East High St.

The Woman's Auxiliary of the Y. M. C. A. will meet on Monday evening, June 9, at 7:30 o'clock. No meetings will be held during the summer, so every member is urged to be present.

Miss Anna Hoy, who had been visiting her brother, Albert, in New York City, returned home recently, accompanied by the latter's little daughter, who will remain with her for some time.

First annual base ball festival will be held at Pleasant Gap, on Saturday evening, June 14th. Ice cream, cake, pop, candy etc. Music will be furnished by I. O. O F. band of Bellefonte.

Mr. and Mrs. Gale Chaney, of Pittsburgh, spent Memorial Day and the week-end with relatives and friends in Bellefonte. Mrs. Chaney will be better remembered as Miss Mary Schad.

The Missionary Tea of the Women's Missionary Society of the Reformed church will be held next Wednesday afternoon at 2.30 o'clock at the home of Mrs. Calvin H. Troupe on Thomas St.

Rev. E. E. McKelvey and family motored this week to Syracuse to attend the commencement service, at which their daughter, Miss Helen, will graduate. They hope to return Monday night or Tuesday morning.

The Woman's Guild of St. John's Episcopal church will give a card party in the Parish House Friday evening, June 6, at 8 o'clock. Both bridge and five hundred will be played. The public is cordially invited. Admission 50 cents.

Miss Ann Hoffer with Miss Helen Houck as motor guest drove over from Philipsburg last Thursday evening and spent Memorial Day in Bellefonte. Miss Hoffer was the guest of Miss Janet Potter and Miss Houck at the Jack Houck home on Thomas street.

Mr. and Mrs. F. W. West were the hosts of a large party of friends over Decoration Day. They were: Mr. and Mrs. G. A. Pearce and Miss Clara Behigh, of Zellenople, Pa., Frank Fowler, of Philadelphia; Mrs. H. L., Frances, Wilbur and Carl Widdowson, and John Erickson, all of Indiana, Pa.

Miss Margaret Stewart departed on Monday night for New York, planning to meet Mrs. Finley Stewart and accompany her to California. If the former is able to arrange for boat accommodations from Seattle, she will visit with her brother, William, who operates a large salmon cannery in Alaska. She will likely be gone until late in the summer.

Mr. and Mrs. Samuel Henry Reynolds, of Lancaster, have issued invitations for the wedding of their daughter, Miss Eilinora Reynolds, and Hugh Merriman Quigley, son of Judge and Mrs. Henry C. Quigley, of Bellefonte. The ceremony will be performed at 4.30 o'clock on the afternoon of Saturday, June 21st, in St. James church, Lancaster. Mr. and Mrs. Reynolds will give a reception for the bride and groom at five o'clock at the Iris Club, in Lancaster.

Allan Garman, of Tyrone, came to Bellefonte last Saturday to attend the funeral of the late Charles R. Kurtz. Mr. and Mrs. Garman were hosts to a large party of friends over the weekend at their beautiful summer home "Edgefonte," at AxeMann. Among the guests were: Mr. and Mrs. Ed. Mann, of Atlantic City; Mr. and Mrs. Harry Evans, of Lock Haven; Mr. and Mrs. Robert Garman and family and Miss Anna Lukens, all of Tyrone; Mrs. Minnie Maitland and her daughter, Mrs. Louise Dayton, of Williamsport.

Arthur Barraclough has removed from Philippi, W. Va., to Bellefonte, planning to reside here in the future.

John Love, Jr., Miss Alberta Bryan, and Mrs. Catherine Coffman, all of Altoona are visiting at the home of John D. Love, on Reynolds avenue.

Among the distinguished guests of Col. Theodore Boal last week-end, was Mary Roberts Rhinehart, the famous novelist and short story writer.

Mrs. Frank Jameson, and son, Junior, arrived in Bellefonte last week, called here by the serious illness of Mrs. Jameson's father, Claude Thompson.

Mr. and Mrs. J. Barry Case, of Washington, motored to Bellefonte last Friday, and spent the week end at the home of Mrs. Case's parents, Mr. and Mrs. William McGowan.

Samuel Rhinesmith departed for Philadelphia on Wednesday to take the examination for 1st. Lieutenant in the National Guard, for assignment to the Headquarters Detachment, 52nd. Machine Gun Squadron.

Capt. R. T. George, wife and daughter, returned on Tuesday from a five day motor trip to Philadelphia, Valley Forge, Pottsville and Mt. Gretna. The Captain leaves on Friday for Mt. Gretna to attend the four day camp of instruction for army officers.

Mr. and Mrs. R. E. Kirk, of Grindstone, are the proud parents of a baby girl which they have named Elizabeth Willard. This is the second daughter in the Kirk family. Mrs. Kirk was, before her marriage, Miss Kitty Willard, of Bellefonte, and for some time, a teacher in the public schools here.

Mr. and Mrs. W. J. Emerick and son Paul and Mr. and Mrs. Frank Crawford will leave on Saturday, June 14, on an 8 weeks motor trip to the Pacific coast. The party will use a 5-passenger Hudson sedan, so equipped that the ladies of the party can sleep in it in case of emergency, while a small tent will be carried for the men. They expect to utilize the southern route on the trip out and to return by the northern one.

Some of the Bellefonte boys and girls who are returning from the various colleges at this time are: Dickinson College, Carlisle—Isabel Ward, Philip and Hugh Johnson and Joseph Parrish. University of Michigan, Ann Arbor—Paul and Mahlon Foreman. Columbia, New York—Clarence Smeltzer. University of Pennsylvania, Philadelphia—Nevin Robb and Fred Herr. Hood College, Baltimore—Stella Cohen and Lois Foreman. Smith College, Boston—Mary Sebring.

Mrs. Horace P. Glover, of Mifflinburg, came to Bellefonte to attend the funeral of the late Mrs. Sarah Hayes last week.

Mr. and Mrs. Richard Lane and son, Jim, of McKeesport, motored to Bellefonte last week. Mr. Lane returned immediately to his home, but Mrs. Lane and Jim will remain here for the week.

Mr. and Mrs. John F. Holt, of Unionville, were in Bellefonte on Wednesday evening to attend the High School commencement exercises, their daughter, Miss Sarah E. Holt, being one of the graduates. She will attend the Lock Haven State Normal School next fall.

The Centre Building & Loan Association will issue a new series of Stock, No. 18, in June. The books will be open for subscriptions June 1st. Help in building homes in our community, and also receive good interest returns on your investment. Subscribe now.
A. C. MINGLE, President CHAS. F. COOK, Secretary
tf

Colonel and Mrs. John F. Short and Mitchell I. Gardner, of Clearfield, motored to Bellefonte last Saturday to attend the funeral of the late Charles R. Kurtz. Colonel Short is editor of the Clearfield "Republican," whose editorials are hardly in harmony with the name of that enterprising newspaper. Colonel Short happens to be prominently identified with Democratic politics, which explains the tenor of the editorials in his newspaper.

Recent Births.

Following is a list of May arrivals as reported to Miss Alice Tate, registrar of vital statistics for this district:

Mr. and Mrs. Nelson O. Rossman, Nittany, May 7, a son, Wilson Andrido.

Mr. and Mrs. George Z. Kerstetter, Nittany, R. F. D., May 12, a son, William W.

Mr. and Mrs. John Plozner, Bellefonte, May 8, a daughter, Ida.

Mr. and Mrs. Nevin R. Smith, Bellefonte, May 18, a daughter.

Mr. and Mrs. Russel L. King, Bellefonte, May 1, a son, Miles Russel.

Mr. and Mrs. Lewis Ishler, Bellefonte, May 17, a son, Paul Eugene.

Mr. and Mrs. Wash Benzie, Bellefonte, May 22, a daughter, Elizabeth.

Mr. and Mrs. Louie Masuallo, Bellefonte, May 16, a son, Joseph.

Mr and Mrs. John E. Holderman, Bellefonte, May 1, a daughter, Bessie Joan.

Mr. and Mrs. Alvin Stover, Pleasant Gap, May 13, a daughter, Virginia.

Mr. and Mrs. Roy E. Swartz, Bellefonte, May 14, a daughter, Esther Louise.

Mr. and Mrs. Grover C. Lannen, Bellefonte, May 7, a son, Charles Gilbert.

Mr. and Mrs. W. B. Heckman, Hublersburg, May 11 a son.

Mr. and Mrs. James R. Saylor, Bellefonte, May 14, a daughter, Anna Mae.

Mr and Mrs. William G. Runkle, May 24, a son.

Mr. and Mrs. David Barlett, Bellefonte, May 23 a son.

Child Run Down By Auto.

Rosalie Williams 4-year-old daughter of John W. Williams, of Port Matilda, was run down by an automobile while playing in the road near her home on Sunday afternoon. She was brought to the Bellefonte Hospital, where she is slowly recovering. She sustained severe lacerations of the scalp and has one gash on her forehead about 4 inches in length.
